TITLE 6-AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1955 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Soybeans]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1955-CROP SOYBEAN LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1955-crop of soybeans. The 1955 C. C. Grain Price Support Bulletin 1 (20 F. R. 3017) issued by the Commodity Credit Corporation and containing the regulations of a general nature with respect to price support operations for certain grains and other commodities produced in 1955, is supplemented as follows:

Sec. 421.1426 Purpose. 421.1427 Availability of price support. 421.1428 Eligible soybeans. 421.1429 Warehouse receipts. 421.1430 Determination of quantity. Determination of quality. 421.1431 421.1432 Maturity of loans. Support rates. 421.1433 Warehouse charges. 421.1434 421.1435 Settlement.

AUTHORITY: §§ 421.1426 to 421.1435 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072; secs. 301, 401, 63 Stat. 1053; 15 U. S. C. 714c, 7 U. S. C. 1447, 1421.

§ 421.1426 Purpose. Sections 421.1426 to 421.1435 state additional specific regulations which together with the general regulations contained in the 1955 C. C. Grain Price Support Bulletin 1 (20 F. R. 3017; §§ 421.1001 to 421.1021) apply to loans and purchase agreements under the 1955-Crop Soybean Price Support Program.

§ 421.1427 Availability of price support—(a) Method of support. Price support will be made available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) Area. Farm-storage and warehouse-storage loans and purchase agreements will be available wherever soybeans are grown in the continental United States, except that farm-storage loans will not be available in areas where the State Committee determines that soybeans cannot be safely stored on the farm.

(c) Where to apply. Application for price support should be made at the office of the county committee which keeps the farm-program records for the farm.

(d) When to apply. Loans and purchase agreements will be available from the time of harvest through January 31, 1956, and the applicable documents must be signed by the producer and delivered to the county committee not later than such final date. Applicable documents include the Producer's Note and Loan Agreement for warehouse-storage loans, the Producer's Note and Supplemental Loan Agreement and the Commodity Chattel Mortgage for farmstorage loans, and the Purchase Agreement for purchase agreements.

(e) Eligible producer An eligible producer shall be an individual, partnership, association, corporation, estate, trust, or other business enterprise, or legal entity, and whenever applicable, a State, political subdivision of a State, or any agency thereof producing soybeans in 1955 as landowner, landlord, tenant or share-cropper.

§ 421.1428 Eligible soybeans. At the time the soybeans are placed under loan or delivered under a purchase agreement, they must meet the following requirements:

(a) The soybeans must have been produced in the continental United States in 1955 by an eligible producer.

(b) (1) The beneficial interest in the soybeans must be in the eligible producer tendering the soybeans for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the soybeans were harvested.

(2) To meet the requirements of succession to a former producer, the rights, responsibilities and interest of the former producer with respect to the farming unit on which the soybeans were produced shall have been substantially assumed by the person claiming succession. Mere purchase of the crop prior to harvest, without acquisition of any additional interest in the farming unit, shall not constitute succession. The county committee shall determine whether the

requirements with respect to succession have been met.

(c) The soybeans must be soybeans of any class, grading No. 4 or better and containing not in excess of 14 percent moisture.

(d) The soybeans must not grade Garlicky or Weevily.

(e) If offered as security for a farmstorage loan, the soybeans must have been stored in the grainary at least 30 days prior to inspection measurement, sampling, and sealing unless otherwise approved by the State committee.

§ 421.1429 Warehouse receipts. Warehouse receipts representing soybeans in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest fittle in the holder, and must be receipts issued on a warehouse approved by CCC under the Uniform Grain Storage Agreement which indicate that the soybeans are insured, or must be receipts issued on warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show (1) Gross weight or bushels, (2) class, (3) grade, (4) test weight, (5) moisture, and (6) any other grading factor(s) when such factor(s) and not test weight or moisture, determine the grade. For soybeans grading Nos. 3 or 4, the percentage of splits, total damage, heat damage and foreign material, if any, must also be shown. In the case of warehouse receipts issued for soybeans delivered by rail or barge, the grading factors on the warehouse receipt or the warehouseman's supplemental certificate must agree with the inbound inspection certificate for the car or barge, if such certificate is issued.

(c) A separate warehouse receipt must be submitted for each grade and class of soybeans.

(d) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 421.1434.

§ 421.1430 Determination of quantity.

(a) The quantity of soybeans placed under farm-storage loan may be determined either by weight or by measurement. The quantity of soybeans placed under a warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

(b) When the quantity is determined by weight, a bushel shall be 60 pounds of soybeans free of foreign material in excess of 2 percent. In determining the quantity of sacked soybeans by weight, a deduction of 34 of a pound for each sack shall be made.

(c) When the quantity of soybeans is determined by measurement, a bushel shall be 1.25 cubic feet of soybeans testing 60 pounds per bushel. The quantity determined shall be the following percentages of the quantity determined for 60-pound soybeans.

For sovbeans testing: Percent 60 pounds or over: 100 59 pounds or over, but less than 60_58 pounds or over, but less than 59_ 93 97 57 pounds or over, but less than 58_ 56 pounds or over, but less than 57. 55 pounds or over, but less than 56_ 92 54 pounds or over, but less than 55_ 53 pounds or over, but less than 54_ 80 88 52 pounds or over, but less than 53. 51 pounds or over, but less than 52_ 50 pounds or over, but less than 51_ 49 pounds or over, but less than 50_

§ 421.1431 Determination of quality. The class, grade, grading factors, percentage of foreign material, and all other quality factors shall be determined in accordance with the method set forth in the Official Grain Standards of the United States for Soybeans, whether or not such determinations are made on the basis of an official inspection. Foreign material which totals 2 percent or less shall not be deducted from the gross weight of the soybeans. If the total weight of foreign material is in excess of 2 percent, the excess shall be deducted from the total quantity of soybeans in the determination of the net number of bushels of soybeans. For the purposes of this determination, foreign material shall be computed in tenths of 1 percent.

§ 421.1432 Maturity of loans. Loans mature on demand but not later than May 31, 1956.

§ 421.1433 Support rates. Loans will be made, and soybeans delivered under purchase agreements will be purchased, at the support rate (and subject to the discounts and premiums) set forth in this section.

(a) Basic county support rates. (1) The following basic county support rates per bushel are established for soybeans of the classes Green soybeans and Yellow soybeans grading No. 2 or better, and containing from 13.8 to 14.0 percent moisture. Both farm-storage and warehouse-storage loans will be made at the support rate established for the county in which the soybeans are produced.

§ 421.1434 Warehouse charges. (a) Warehouse receipts and the soybeans represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the soybeans are deposited in the warehouse for storage. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing soybeans stored in warehouses operating under the Uniform Grain Storage Agreement is on or before May 31, 1956, there shall be deducted in computing the amount of the loan or purchase price the storage charges per bushel as shown in the following table. unless written evidence has been submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges, have been prepaid through May 31, 1956:

- sovbeans represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission.
- (2) For soybeans stored in approved warehouses operated by Eastern common carriers, there shall be deducted in computing the loan or purchase price the amount of the approved tariff rate for storage (not including elevation) which will accumulate from the date of deposit through May 31, 1956, unless written evidence has been submitted with the warehouse receipt that the storage charges have been prepaid. The county committee shall request the CSS commodity office to determine the amount of such charges. Where the producer presents evidence showing that elevation charges have been prepaid, the amount of the storage charges to be deducted shall be reduced by the amount of the elevation charges prepaid by the producer.

§ 421.1435 Settlement—(a) Settlement value. (1) In the case of eligible soybeans delivered to CCC from farmstorage under the loan program, settle-ment shall be made at the applicable support rate determined in accordance with §§ 421.1433 and 421.1018 (f) support rate shall be for the grade and quality of the total quantity of soybeans eligible for delivery. If, upon delivery, the soybeans under farm-storage loan are of a grade and/or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and/or quality of the soybeans placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and/or qual-

(b) (1) Warehouse receipts and the ity placed under loan and the market price of the soybeans delivered as determined by CCC: Provided, however That if such soybeans are sold by CCC in order to determine their market price the settlement value shall not be less than such sales price.

- (2) In the case of eligible soybeans delivered to CCC under purchase agreement, settlement shall be made at the applicable support rate determined in accordance with §§ 421.1433 and 421.1018 (f)
- (b) Storage deduction for early delivery. Whenever farm-stored soybeans under loan or purchase agreement are delivered to CCC prior to May 31, 1956. a deduction for storage shall be made in accordance with the schedule of deductions for warehouse charges (§ 421.1434) except that no such deduction shall be made if such early delivery is made because the loan is called solely for the convenience of CCC, or if it is determined by CCC at the time of delivery that the soybeans will be sold rather than stored, or if CCC requires early delivery on an area basis.
- (c) Refund of prepaid handling charges. In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on soybeans under loan or purchase agreement stored in a warehouse under the Uniform Grain Storage Agreement. the producer shall, upon delivery of the soybeans to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement, pro-vided, the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.
- (d) Track-loading payment. A trackloading payment of 3 cents per bushel shall be made to the producer on soy-

beans delivered to CCC on track at a country point.

Issued this 11th day of July 1955.

[SEAL] WALTER C. BERGER, Acting Executive Vice President, Commodity Credit Corporation.

TITLE 7-AGRICULTURE

Chapter I—Agricultural Marketing
-Service (Standards, Inspections,
Marketing Practices), Department
of Agriculture

PART 28-COTTON STANDARDS

STANDARDS FOR GRADES OF COTTONSEED SOLD OR OFFERED FOR SALE FOR CRUSHING PURPOSE WITHIN UNITED STATES DETERMINATION OF QUANTITY INDEX

The amendment to the Standards for Grades of Cottonseed Sold or Offered for

Sale for Crushing Purposes within United States (7 CFR Part 28) hereinafter set forth, is hereby promulgated to be effective July 18, 1955, pursuant to authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.)

Both a quantity index and a quality index are used in determining the grade of cottonseed. The table of premiums and discounts for total linters content of cottonseed contained in § 28.402 (c) for determining the quantity index of cottonseed is being amended because of the change in the price relationship between linters and cottonseed oil, meal, and hulls.

The Department finds that it is impracticable, unnecessary, and contrary to the public interest to issue a notice of proposed rule making on this amendment or to postpone the effective date of the amendment until thirty (30) days after publication in the Federal Register for the reasons that: (1) The marketing season for cottonseed for crushing purposes has already begun in the southernmost sections of the Cotton Belt and it is imperative that the revision be effective for grading purposes as soon as possible; (2) no preparation is required by the industry to comply with the amendment; and (3) the industry was given notice on April 3, 1954 (19 F. R. 1878) that such table of premiums and discounts would be amended from season to season to reflect changes in the price relationship between linters and other products obtainable from cottonseed.

The amendment is as follows:

Delete paragraph (c) of § 28.402 and substitute therefor the following:

(c) The premium or discount for total linters content of cottonseed to be used in paragraphs (a) and (b) of this section will be according to the following table:

	Premium
Total linters content	or discount
of cottonseed	(quantity
j₁ (percent) ¹	index units) 1
20.0	
19.0	
18.0	+6.5
17.0	+5.5

PART 52—PROCESSED FRUITS AND VEGE-TABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN LIMA BEANS ¹

Pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1037 et seq., 7 U. S. C. 1621 et seq.) and by virtue of the authority vested in me by the Secretary of Agriculture, the United States Standards for Grades of Frozen Lima Beans (§§ 52.501-52.509) are amended as hereinafter set forth.

Such standards are hereby amended, effective on and after July 15, 1955, to read as follows:

PRODUCT DESCRIPTION, TYPES, AND GRADES

Sec. 52.501 Product description.

52,502 Types of frozen lima beans.

52.503 Grades of frozen lima beans.

FACTORS OF QUALITY

52.504 Accertaining the grade. 52.505 Accertaining the rating for the factors which are scored. 52.506 Color.

52.507 Defects.

LOT CERTIFICATION TOLERANCES

52.508 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.509 Score sheet for frozen lima beans.

Authorit: §§ 52.501 to 52.509 issued under cec. 205, 60 Stat. 1090; 7 U. S. C. 1624.

PRODUCT DESCRIPTION, TYPES, AND GRADES

§ 52.501 Product description. "Frozen lima beans" means the frozen product prepared from the clean, sound, succulent seed of the lima bean plant by shelling, washing, blanching, and properly draining, and is then frozen in accordance with good commercial practice and maintained at temperatures necessary for the preservation of the product.

§ 52.502 Types of frozen lima beans.
(a) "Thin-seeded," such as Henderson Bush and Thorogreen varieties.

(b) "Thick-seeded Baby Potato," such as Baby Potato, Baby Fordhook, and Evergreen.

³ Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmette Act.

- (c) "Thick-seeded," such as Fordhook variety.
- § 52.503 Grades of frozen lima beans.
 (a) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen lima beans that possess similar varietal characteristics; that possess a good flavor; that are tender; that possess a good color; that are practically free from defects; and that score not less than 90 points when scored in accordance with the scoring system outlined in this subpart.
- (b) "U. S. Grade B" or "U. S. Extra Standard" is the quality of frozen lima beans that possess similar varietal characteristics; that possess a good flavor that are reasonably tender that possess a reasonably good color that are reasonably free from defects; and that score not less than 80 points when scored in accordance with the scoring system outlined in this subpart.
- (c) "U. S. Grade C" or "U. S. Standard" is the quality of frozen lima beans that possess similar varietal characteristics; that possess a fairly good flavor that are fairly tender that possess a fairly good color; that are fairly free from defects; and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.
- (d) "Substandard" is the quality of frozen lima beans that fail to meet the requirements of U.S. Grade C or U.S. Standard.

FACTORS OF QUALITY

- § 52.504 Ascertaining the grade—(a) General. In addition to considering other requirements outlined in the standards, the following quality factors are evaluated:
- (1) Factors not rated by score points.(i) Varietal characteristics.
 - (ii) Flavor.
- (iii) Tenderness.
- (2) Factors rated by score points. The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each such factor is:

Factors: Po	ints
Color	60
Defects	40
Total score	100

- (b) The scores for the factors of color and absence of defects are determined immediately after thawing to the extent that the product is substantially free from ice crystals and can be handled as individual units. The evaluation of the factors of tenderness and flavor of frozen lima beans is made after thawing and after the product is cooked.
- (c) "Good flavor" means that the product has a good, characteristic, normal flavor and odor and is free from objectionable flavors and objectionable odors of any kind.
- (d) "Fairly good flavor" means that the product may be lacking in good flavor and odor but is free from objectionable flavors and objectionable odors of any kind.
- § 52.505 Ascertaining the rating for the factors which are scored. The essen-

tial variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "54 to 60 points" means 54, 55, 56, 57, 58, 59, or 60 points)

- § 52.506 Color—(a) General. The color of frozen lima beans has reference to the color characteristic of the individual lima bean.
- (1) "Green" means that not less than 50 percent of the surface area of the individual lima bean possesses as much or more green color than U. S. D. A. lima bean green color standard for frozen lima beans.
- (2) "White" means that more than 50 percent of the surface area of the individual lima bean is lighter in color than U. S. D. A. lima bean white color standard for frozen lima beans.
- (3) The U. S. D. A. frozen lima bean color standards conform to the I. C. I. and other color requirements as specified in Table No. I of this section.

TABLE NO. I—COLOR REQUIREMENTS FOR U. S. D. A. COLOR STANDARDS FOR FROZEN LIMA BEANS

Color designation	Day- light direc- tional reflect- ance	Chromaticity coordinates		
U. S. D. A. lima bean green color standard. U. S. D. A. lima bean white color standard.	Y 40.4 63.5	.3715 .3731	y .4576 .4016	

- (4) Information regarding these color standards may be obtained by writing to the Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, U. S. Department of Agriculture, Washington 25, D. C.
- (b) (A) classification. Frozen lima beans that possess a good color may be given a score of 54 to 60 points. "Good color" means that the lima beans, regardless of type, possess a bright typical color and meet the following additional color requirements for the respective types:
- (1) Thin-seeded type (with skins removed) Thick-seeded Baby Potato type (with skins on) (i) Not less than 93 percent, by count, of the lima beans are "green" and not more than 7 percent, by count, may be lighter in color: Provided, That not more than 1 percent, by count, of all the lima beans are white, or
- (ii) Not less than 97 percent, by count, of the lima beans are "green" and not more than 3 percent, by count, may be lighter in color or white lima beans.
- (2) Thick-seeded type (with skins on)
 Not less than 85 percent, by count, of
 the lima beans are "green" and not more
 than 15 percent, by count, may be lighter
 in color Provided, That not more than
 1 percent, by count, of all the lima beans
 are white.
- (c) (B) classification. If the frozen lima beans possess a reasonably good color, a score of 48 to 53 points may-be given. Frozen lima beans that fall into this classification shall not be graded above U.S. Grade B or U.S. Extra Stand-

- ard, regardless of the total score for the product (this is a limiting rule) "Reasonably good color" means that the lima beans, regardless of type, possess a typical color and meet the following additional requirements for the respective types:
- (1) Thin-seeded type (with skins removed) Thick-seeded Baby Potato type (with skins on). Not less than 65 percent, by count, of the lima beans are "green" and not more than 35 percent, by count, may be lighter in color or white beans.
- (2) Thick-seeded type (with skins on)
 Not less than 60 percent, by count, of the
 lima beans are "green" and not more
 than 40 percent, by count, may be lighter
 in color Provided, That not more than
 5 percent, by count, of all the lima beans
 are white.
- (d) (C) classification. If the frozen lima beans possess a fairly good color, a score of 42 to 47 points may be given. Frozen lima beans that fall into this classification shall not be graded above-U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule) "Fairly good color" means that the lima beans, regardless of type, possess a typical color and meet the following additional requirements for the respective types:
- (1) Thin-seeded type (with skins removed) Thick-seeded Baby Potato type (with skins on) Less than 65 percent, by count, of the lima beans are "green" and all of the lima beans may be white.
- (2) Thick-seeded type (with skins on) Less than 60 percent, by count, of the lima beans are "green" Provided, That not more than 20 percent, by count, of all the lima beans are white.
- (e) (SStd.) classification. Frozen lima beans that are definitely off color or fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 41 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule)
- § 52.507 Defects—(a) General. The factor of defects refers to the degree of freedom from harmless extraneous vegetable material, from pieces of beans, shriveled beans, sprouted beans, light discoloration, and from beans that are blemished or seriously blemished.
- (1) "Harmless extraneous vegetable material" means:
- .(i) Predominantly flat or predominantly cylindrical, green, tender vegetable material, such as pieces of pods or leaves and stems of the lima bean plant; and
- (ii) Predominantly spherical vegetable material, such as seeds from other plants.
- (2) "Piece of bean" (broken bean) means:
- (i) A whole bean from which one-half or more of a cotyledon or the equivalent thereof has become detached;
- (ii) Two detached whole cotyledons; (iii) Pieces of detached broken cotyledons aggregating the equivalent of one average size whole cotyledon; and
- (iv) A whole detached skin or portions of detached skin aggregating the equivalent of an average size whole skin.

(3) "Shriveled" means lima beans that are materially wrinkled and are not of normal plumpness.

(4) "Sprouted" means lima beans that show an external shoot protruding prominently beyond the cotyledon or

(5) "Light discoloration" means light discoloration of the hilum or other light discoloration which slightly affects but does not materially affect the appearance or eating quality of the bean.

(6) "Blemished" means blemished by discoloration or blemished by other means to the extent that the appearance or eating quality of the bean is mate-

rially affected.

(7) "Seriously blemished" means plemished to such an extent that the appearance or eating quality of the bean is seriously affected.

(b) (A) classification. Frozen lima beans that are practically free from defects may be given a score of 36 to 40 points. "Practically free from defects" means that:

(1) There may be present:

- (i) For each 10 ounces, net weight, one piece, or pieces, of predominantly flat, harmless extraneous vegetable material having an aggregate area of 3/16 square inch (1/2 inch by 3/8 inch) on one surface of the piece, or pieces, and one predominantly cylindrical piece, or pieces, of harmless extraneous vegetable material not exceeding 1/2 inch in length in the aggregate; or
- (ii) For each 30 ounces, net weight, one predominantly spherical piece of harmless extraneous vegetable material measuring not more than 1/4 inch in diameter.
 - (2) There may be present:
- (i) 5 percent, by count, of pieces of beans; 2
- (ii) 1 percent, by count, of shriveled and sprouted beans;
- (iii) 2 percent, by count, of blemished and seriously blemished beans, and of such 2 percent, not more than 1/4 thereof or ½ of 1 percent, by count, of all the beans may be seriously blemished:

and that

(3) The presence of harmless extraneous vegetable material, pieces of beans, shriveled and sprouted beans, light discoloration, and blemished and seriously blemished beans, individually or collectively, does not more than slightly affect the appearance or eating quality of the product.

(c) (B) classification. If the frozen lima beans are reasonably free from defects, a score of 32 to 35 points may be given. Frozen lima beans that fall into this classification on account of the presence of shriveled or sprouted beans and of blemished or seriously blemished beans, shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a partial limiting rule) "Reasonably free from defects" means that:

multiplying the quotient by 100.

(1) There may be present:

(i) For each 10 ounces, net weight, one piece, or pieces, of predominantly flat, harmless extraneous vegetable material having an aggregate area of % square inch (1/2 inch by 3/4 inch) on one surface of the piece, or pieces, and one predominantly cylindrical piece, or pieces, of harmless extraneous vegetable material not exceeding 34 inch in length in the aggregate; or

(ii) For each 30 ounces, net weight, two predominantly spherical pieces of harmless extraneous vegetable material measuring not more than ¼ inch in

diameter.

(2) There may be present:

(i) 10 percent, by count, of pieces of beans; 3

(ii) 4 percent, by count, of shriveled

and sprouted beans:

(iii) 3 percent, by count, of blemished and seriously blemished beans, and of such 3 percent, not more than 1/3 thereof or 1 percent, by count, of all the beans may be seriously blemished:

(3) The presence of harmless extraneous vegetable material, pieces of beans, shriveled and sprouted beans, light discoloration, and blemished and seriously blemished beans, individually or collectively, does not materially affect the appearance or eating quality of the product.

(d) (C) classification. Frozen lima beans that are fairly free from defects may be given a score of 28 to 31 points. Frozen lima beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule) "Fairly free from defects" means that:

(1) There may be present:

(i) For each 10 ounces, net weight, one piece, or pieces, or predominantly flat, harmless extraneous vegetable material having an aggregate area of 34 square inch (1/2 inch or 11/2 inches) on one surface of the piece, or pieces, and one predominantly cylindrical piece, or pieces, of harmless extraneous vegetable material not exceeding 1 inch in length in the aggregate; or

(ii) For each 30 ounces, net weight, three predominantly spherical pieces of harmless extraneous vegetable material measuring not more than 14 inch in diameter.

(2) There may be present:

(i) 15 percent, by count, of pieces of beans:

(ii) 8 percent, by count, of shriveled and sprouted beans:

(iii) 4 percent, by count, of blemished and seriously blemished beans, and of such 4 percent, not more than 1/2 thereof or 2 percent, by count, of all the beans may be seriously blemished; and that

(4) The presence of harmless extraneous vegetable material, pieces of beans, shriveled and sprouted beans, light discoloration, and blemished and seriously blemished beans, individually or collectively, does not seriously affect the appearance or eating quality of the product.

(e) (SStd.) classification. Frozen lima beans that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule)

LOT CERTIFICATION TOLERANCES

§ 52.508 Tolerances for certification of officially drawn samples. (a) When certifying samples that have been officially drawn and which represent a specific lot of frozen lima beans, the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, (1) all containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification; and (2) with respect to those factors which are scored:

(i) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores

(ii) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores:

(iii) None of the containers falls more than one grade below the grade indicated by the average of such total

scores; and
(iv) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of the total score of the containers comprising the sample.

Notice of proposed rule making, public procedure thereon, and the delaying of the making of this document effective later than July 15, 1955 (see section 4 of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.) are impractical, unnecessary, and contrary to the public interest because: (1) It is very desirable that these amendments be made effective well in advance of the next frozen lima bean packing season, which will begin in July 1955; (2) these amendments have been discussed with repre-

²The percent, by count, of pieces of beans in the sample is determined by dividing the total number of pieces of beans by the total number of beans and pieces of beans and

sentatives of the lima bean industry and they have indicated general concurrence therein: (3) such amendments should not cause the making of any substantial changes with respect to the present packing and other handling operations with respect to frozen lima beans; and (4) any such changes necessary with respect to such handling operations should easily be made within the time allowed.

Dated: July 12, 1955.

F R. BURKE, [SEAL] Acting Deputy Administrator Marketing Services:

[F. R. Doc. 55-5803; Filed, July 14, 1955; 8:51 a. m.]

Chapter III—Agricultural Research Service, Department of Agriculture

PART 354-OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

OVERTIME, NIGHT, AND HOLIDAY INSPECTION AND QUARANTINE ACTIVITIES AT BORDER, COASTAL, AND AIR PORTS

Section 354.1 of Part 354, Title 7, Code of Federal Regulations, is further amended to read as follows:

§ 354.1 Overtime work at border ports, seaports, and airports. (a) Any person, firm, or corporation having ownership, custody or control of plants, plant products, or other commodities or articles subject to inspection, certification, or quarantine under this chapter, and who requires the services of an employee of the Plant Quarantine Branch on a holiday or at any other time outside the regular tour of duty of such employee, shall sufficiently in advance of the period of overtime request the Branch inspector in charge to furnish inspection, quarantine or certification service during such overtime period, and shall pay the Government therefor at the rate of \$5.00 per man-hour per employee as follows: A minimum charge of two hours shall be made for any unscheduled overtime duty performed by an employee on a day when no work was scheduled for him or which is performed by an employee on his regular work day beginning either at least one hour before his scheduled tour of duty or at least one hour after he has completed his scheduled tour of duty, and has left his place of employment. In addition, each period of unscheduled overtime work which requires an employee to perform additional travel for which he would otherwise not be compensated, and each period of holiday duty, may include a commuted travel time period, not in excess of three hours. The amount of this period shall be prescribed in administrative instructions to be issued by the Chief of the Plant Quarantine Branch for the ports, stations, and areas in which the employees are located, and shall be established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such overtime duty if such travel is performed solely

on account of such overtime duty. It will be administratively determined from time to time which days constitute holidays.

(b) The Branch inspector in charge. in honoring a request to furnish inspection, quarantine, or certification service, shall assign employees to such overtime or holiday duty with due regard to the work program and availability of employees for such duty.

The purpose of this amendment is to increase the hourly rate for overtime services from \$4.68 to \$5.00 commensurate with salary increases provided in the Federal Employees' Salary Increase Act of 1955 (Public Law 94, 84th Congress, Chapter 189, 1st Session)

The purpose of this amended section is to prescribe conditions under which a minimum charge may be made for unscheduled overtime duty, and to provide for a commuted travel time period for any such overtime duty involving additional and otherwise uncompensated travel. Determination of these conditions and travel time period depends entirely upon facts within the knowledge of the Department of Agriculture. It is to the benefit of the public that this amendment be made effective at the earliest practicable date. Accordingly pursuant to the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238) it is found upon good cause that notice and public procedure on this amendment are impracticable, unnecessary, and contrary to the public interest and good cause is found for making this amendment effective less than thirty days after publication.

The foregoing amendment shall be effective July 15, 1955.

(64 Stat. 561; 5 U.S. C. 576)

Done at Washington, D. C., this 11th day of July 1955.

[SEAL] M. R. CLARKSON, Acting Administrator Agricultural Research Service.

AUTHORITY: §§ 1003.0 to 1003.84 issued under sec. 5, 49 Stat. 753, as amended; 68 Stat. 906, 1047; 7 U.S. C. 608c.

Findings and determina-§ 1003.0 tions—(a) Findings upon the basis of the hearing record. Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900; 19 F. R. 57) a public hearing was held at Coachella, Califorma, on March 23 and 24, 1955 upon a proposed marketing agreement and a proposed marketing order regulating the handling of domestic dates produced or packed in Los Angeles and Riverside Counties of California. Upon the basis of the evidence adduced at such hearing. and the record thereof, it is found that:

(1) This marketing order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act:

(2) This marketing order regulates the handling of dates produced or packed in Los Angeles and Riverside Counties located within the State of California in the same manner as, and is applicable only to the persons in the respective classes of industrial and commercial activities specified in, the proposed marketing agreement and order upon which a hearing has been held:

(3) This marketing order is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act and the issuance of several orders applicable to subdivisions of the production area would not carry out the declared policy of the act effectively.

(4) There are no differences in the production and marketing of dates in the production area covered by the marketing order which would require different terms applicable to different parts of such area; and

(5) The handling of all dates produced or packed in Los Angeles and Riverside Counties located within the State of California is either in the current of interstate or foreign commerce, or directly burdens, obstructs or affects such commerce.

(b) Additional findings. hereby found and determined that it is necessary in the public interest, for the provisions of §§ 1003.1 through 1003.31, 1003.34 through 1003.36, 1003.61, 1003.65 through 1003.68, 1003.71, that portion of § 1003.72 which authorizes the committee to accept payments of assessments in advance and to borrow money, and 1003.77 through 1003.84 of this subpart to become effective on the date of publication in the FEDERAL REGISTER, and for the remainder of such subpart to become effective on September 1, 1955.

(2) The above-named sections, which are to become effective on the date of publication in the FEDERAL REGISTER, are those relating to definitions, establishment and functions of the Date Administrative Committee, determination of a marketing policy, reports by handlers, committee expenses, and miscellaneous non-regulatory provisions. It is necessary that these provisions become effective at the earliest practicable date because considerable time will be required for the completion by the committee and the Secretary of numerous actions which must be taken before the grade and volume regulations authorized under the order can be made operative. These actions include the approval of operational rules and regulations, and the development of a marketing policy for the 1955–56 crop year. Provision must also be made for the committee to obtain operating funds until the assessment provisions become effective. These preliminary actions could not be taken in time to permit effective regulation of the 1955-56 date crop if the effective date of these provisions is delayed until 30 days after publication of this subpart in the FEDERAL REGISTER.

(3) The remaining sections of the subpart, which will become effective on September 1, 1955, include those provisions authorizing minimum standards of quality, additional grade regulations, inspection requirements, and the levying of assessments on handlers. The effective date of these provisions is being postponed until September 1, 1955, in order to provide ample time for the committee to begin functioning and for handlers to prepare themselves for operation under the order. Although the crop year for dates under the order begins on August 1, dates produced in 1955 will not be processed and ready for shipment to market in significant volume until the latter part of September. Delaying the effective date of the regulatory provisions of the order, therefore, will not prevent effective control of the disposition of the crop. The additional time will also provide an opportunity to those handlers who have not yet disposed of their 1954 crop pack to do so without being required to have dates inspected a second time, or to withhold a portion of their 1954 crop pack if a restricted percentage is in effect during the 1955-56 crop year.

(4) On the basis of the foregoing circumstances, good cause exists for making the provisions of the subpart effective at the times hereinafter specified, and it would be contrary to the public interest to postpone the effective date of all provisions until 30 days after publication in the Federal Register (5

U.S. C. 1001 et seq.)
(5) Therefore, the provisions of \$\\$ 1003.1 through 1003.31, 1003.34 through 1003.36, 1003.61, 1003.65 through 1003.68, 1003.71, that portion of 1003.72 which authorizes the committee to accept payments of assessments in advance and to borrow money and 1003.77 through 1003.84 shall become effective upon publication in the FEDERAL REG-

become effective on September 1, 1955. (c) Determinations. It is hereby de-

termined that:

(1) The marketing agreement regulating the handling of domestic dates produced or packed in Los Angeles and Riverside Counties of California, upon which a public hearing was held at Coachella, California, on March 23 and 24, 1955, has been executed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping dates covered by this subpart) who handled not less than 50 percent of the volume of such dates covered by this subpart;

(2) The issuance of this subpart is favored or approved by at least twothirds of the producers who participated m a referendum on the question of its approval and who, during the determined representative period (August 1, 1954, through May 31, 1955) were engaged in the production for market of the Deglet Noor, Zahidi, and Khadrawy varieties of dates which will be covered

under this subpart; and

(3) The issuance of this subpart is favored or approved by producers who participated in a referendum on the question of its approval and who, during the aforesaid representative period, produced for market at least two-thirds of the volume of Deglet Noor, Zahidi, and Khadrawy varieties of dates represented m such referendum.

It is therefore ordered, That, on and after the effective date hereof, the handling of domestic dates produced or packed in Los Angeles and Riverside Counties of California shall be in conformity to, and in compliance with, the terms and conditions of this order; and the terms and conditions of said order are as follows:

DEFINITIONS

- "Secretary" § 1003.1 Secretary. means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.
- § 1003.2 Act. "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq., 68 Stat. 906, 1047)
- § 1003.3 Person. "Person" means an individual, partnership, corporation, association, or any other business unit.
- § 1003.4 Area of production. "Area of production" means the counties of Riverside and Los Angeles located within the State of California.
- § 1003.5 Dates. "Dates" means the Deglet Noor, Zahidi, and Khadrawy varieties of domestic dates produced or packed in the area of production.
- § 1003.6 Crop year "Crop year" means the 12 months from August 1 to the following July 31, both inclusive.
- "Producer" is § 1003.7 Producer synonymous with grower and means any

ISTER; and the remaining provisions shall person engaged in a proprietary capacity in the production of dates for sale.

- § 1003.8 Handler "Handler" means any person handling dates which have not been inspected and certified for handling in the hands of a previous holder: Provided, That for the purposes of §§ 1003.22 and 1003.24 such person shall qualify as a handler only if he has acquired the dates directly from producers.
- § 1003.9 Handle, "Handle" means to sell, consign, transport or ship (except as a common or contract carrier of dates owned by another person) or in any other way to put dates into the current of commerce, except that sales or deliveries by producers to a handler within the area of production shall not be considered as handling.
- § 1003.10 Handler carry-over "Handler carry-over" means, as of any date, all marketable dates then held by a handler or for his account (whether or not sold), plus the estimated quantity of marketable dates in ungraded or unprocessed lots then held by said handler.
- § 1003.11 Trade demand. "Trade demand" means the quantity of marketable dates which the trade will acquire from all handlers during the crop year for distribution in the continental United States, Canada, and such other countries as the committee finds will acquire dates at prices reasonably comparable with prices received in the continental United States.
- § 1003.12 Marketable dates. "Marketable dates" means, for any crop year, whole or pitted dates which are certified as equal to or higher than the minimum grade permitted to be handled by the regulations imposed by this part.
- § 1003.13 Free dates. "Free dates" means those dates which are free to be handled pursuant to any free percentage established by the Secretary in accordance with § 1003.44.
- Restricted dates. § 1003.14 stricted dates" means those dates which must be withheld by handlers pursuant to any restricted percentage established by the Secretary in accordance with § 1003.44.
- § 1003.15 Committee. "Committee" means the Date Administrative Committee established pursuant to § 1003.21.
- § 1003.16 Cooperative handler. operative handler" means any handler which is a cooperative marketing association of growers organized under the laws of the State of California.
- § 1003.17 Part and subpart. "Part" means the order regulating the handling of domestic dates produced or packed in Los Angeles and Riverside counties of California, and all rules, regulations, and supplementary orders issued thereunder. The aforesaid order shall be a "subpart" of such part.

DATE ADMINISTRATIVE COMMITTEE

§ 1003.21 Establishment of Date Administrative Committee. A Date Administrative Committee consisting of seven members, with an alternate member for each such member, is hereby established

to administer the terms and conditions of this part.

- § 1003.22 Membership representation. Members and alternates shall be selected by the Secretary from each of the following groups and on the following basis:
- (a) One to represent handlers each of whom produced not less than 40 percent of the volume he handled.
- (b) One to represent cooperative handlers.
- (c) Two to represent handlers not mcluded in paragraph (a) or (b) of this section.
- (d) One to represent producers who are members of a cooperative marketing association.
- (e) Two to represent producers who are not members of a cooperative marketing association.
- The foregoing representation is based on each handler member representing approximately 25 percent of the tonnage handled and each producer member reprecenting approximately one-third of the total number of commercial producers. Whenever the Secretary finds that changes in tonnage handled or producer membership in cooperatives is such as to warrant a realignment of the four handler members or the three producer members, he shall notify the committee and thereafter nominations and selections of members and alternates shall be on such new basis as the Secretary may determine.
- § 1003.23 Term of office. In the groups specified in § 1003.22, one member and his alternate in the groups in paragraphs (c) and (e) and the member and alternate in the group in paragraph (b) shall serve until April 15 of even-numbered years and the others shall serve until April 15 of odd-numbered years but all shall serve, unless disqualified, until their respective successors have been selected and have qualified.
- § 1003.24 Nominations—(a) Initial members. Nominations for each of the Nominations—(a) Initial initial members, together with nominations for the initial alternate members, may be submitted to the Secretary by individual, or groups of, producers, producer-handlers, or handlers. Such nominations, if made, shall be received by the Secretary no later than the effective date of this subpart. In the event such nominations are not received as prescribed, the Secretary may select such initial members and alternate members without regard to nominations.
- (b) Successor members. Each of the groups specified in § 1003.22 may nominate members and alternates for such members at nomination meetings to be held on or before March 15 of each year. At such meetings each person shall be entitled to cast one vote for each position to be filled except that the votes cast in the groups in § 1003.22 (a), (b) and (c) shall be weighted by the tonnage of dates acquired from producers and certified for handling through February 28 of the current crop year. The individual receiving the highest number of votes shall be the nominee. Immediately after the completion of such meetings the committee shall report to the

Secretary the nominees for each position together with a certificate of all necessary tonnage data and other information deemed by the committee to be pertinent or which is requested by the Secretary. In the event nominations for any position on the committee are not received within a reasonable time, the Secretary may select members or their alternates without regard to nominations but such selections shall be on the basis prescribed in § 1003.22.

- § 1003.25 Qualification. Each person selected as a member or alternate member of the committee shall, prior to serving on the committee, qualify by filing with the Secretary a written acceptance after receiving notice of his selection. Any member or alternate who, at the time of his selection, was a member of or employed by a member of the group which nominated him shall, upon ceasing to be such member or employee, become disqualified to serve further and his position on the committee shall be deemed vacant.
- § 1003.26 Vacancies. In the event of any vacancy occasioned by the failure of any person selected as a member or alternate member of the committee to qualify or by the removal, resignation, disqualification, or death of any member or alternate member, a successor for such person's unexpired term shall be nominated within thirty calendar days after such vacancy occurs and selected in the manner, and subject to the conditions, provided in this subpart.
- § 1003.27 Alternates. An alternate for a member of the committee shall act in the place and stead of such member during his absence or in the event of his removal, resignation, disqualification, or death, until a successor for such member's unexpired term has been selected and has qualified.
- § 1003.28 *Expenses*. The members of the committee shall serve without compensation but shall be allowed their necessary expenses.
- § 1003.29 *Powers*. The committee shall have the following powers:
- (a) To administer the terms and provisions of this subpart.
- (b) To make rules and regulations to effectuate the terms and provisions of this subpart.
- (c) To receive, investigate, and report to the Secretary complaints of violations of this subpart, and
- (d) To recommend to the Secretary amendments to this subpart.
- § 1003.30 *Duties*. The committee shall have, among other things, the following duties:
- (a) To act as intermediary between the Secretary and any producer or handler.
- (b) To keep minutes, books, and records which will clearly reflect all of its transactions and such minutes, books, and other records shall be subject to examination by the Secretary at any time.
- (c) To investigate the growing, handling, and marketing conditions with respect to dates, to assemble data in connection therewith.

- (d) To furnish to the Secretary such available information as may be deemed pertinent to the administration of this subpart or as he may request and to give to the Secretary the same notice of meetings of the committee as is given to the members of the committee.
- (e) To appoint such employees as it may deem necessary and to determine the salaries, define the duties and where desirable fix the bonds of such employees.
- (f) To cause the books of the committee to be audited by a certified public accountant at least once each crop year and at such other times as the committee may deem necessary or the Secretary may request. The report of each such audit shall show among other things the receipt and expenditure of funds pursuant hereto. Two copies of such audit shall be submitted to the Secretary, and
- (g) To investigate compliance and to use means available to the committee to prevent violations of this part.
- § 1003.31 Procedure. The members of the committee shall select a chairman from their membership and shall select such other officers and adopt such rules for conduct of its business as it may deem advisable. All decisions of the committee shall be by at least five affirmative votes. The presence of five members shall be required to constitute a quorum. The committee may vote by mail, telephone when confirmed in writing, or telegram, upon due notice and full and identical explanation to all members, but one dissenting vote shall prevent the adoption of any proposition presented to voting by this method. At all assembled meetings of the committee all votes shall be cast in person.

RESEARCH AND DEVELOPMENT

§ 1003.33 Research and development. The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of dates. The expense of such projects shall be paid from funds collected pursuant to § 1003.72.

MARKETING POLICY

- § 1003.34 Development. As early as practicable, but no later than August 1, the committee shall prepare and submit to the Secretary a report setting forth its marketing policy including the data on which it is based, for the regulation of dates in the ensuing crop year. In developing the marketing policy the committee shall give consideration to the following factors by varieties:
- (a) Its estimate of the total production separated as to marketable and other grades, which will be produced in such crop year;
- (b) Its estimate of handler carry-over as of July 31 and of any non-marketable dates held by handlers or users;
- (c) Its estimate of the trade demand, taking into consideration imports, economic conditions and the anticipated market price, within the limitations of the act;

- (d) Its recommendation with respect to the free and restricted percentages to be fixed; and
- (e) Its recommendations as to grado regulations.
- § 1003.35 Modifications. In the event the committee subsequently determines that the marketing policy should be modified due to changing supply or demand conditions, it shall formulate and submit to the Secretary its modified marketing policy along with the data which it considered in connection with such modification.
- § 1003.36 Notice. The committee shall give notice through newspapers having general circulation in the area of production or by other means of communication to producers and handlers of the contents of each marketing policy report submitted to the Secretary and of each report modifying such marketing policy. Copies of all such reports shall be maintained in the office of the committee where they shall be available for examination by producers and handlers.

GRADE REGULATION

§ 1003.39 The establishment of minimum standards. In order to effectuate the declared policy of the act all whole and pitted dates handled under this subpart shall meet the requirements of U.S. Grade C, of the effective United States Standards for Grades of Dates: Provided, That the Secretary may, upon recommendation of the committee, prescribe other minimum standards of quality To aid the Secretary in prescribing such other minimum standards, the committee shall furnish to the Secretary the data upon which it acted in recommending such standards. The provisions hereof relating to minimum standards of quality and to inspection requirements, within the meaning of section 2 (3) of the act, and any other provisions relating to the administration and enforcement thereof shall continue in effect irrespective of whether the season average price to producers for dates is or is not in excess of the parity level specified in section 2 (1) of the act. Notice of the minimum standard regulation shall be sent by the committee to all handlers of record, and thereafter no handler shall handle dates except in accordance with such minimum standards.

§ 1003.40 Additional grade regulation. Whenever the committee deems it advisable to establish grade regulations for any variety in addition to those provided by the minimum standards, to govern shipments of dates, it shall recommend to the Secretary controls based on the effective United States Standards for Grades of Dates or any modification thereof. If the Secretary finds upon the basis of such recommendation or other information available to him, that such additional grade regulation would tend to effectuate the declared policy of the act he shall establish such regulations, and notice thereof, showing the effective date, shall be sent by the committee to all handlers of record. Thereafter no handler shall handle dates except in accordance with such grade regulations.

§ 1003.41 Inspection—(a) Packed dates. Prior to shipment each handler shall, at his own expense, cause an inspection to be made of all dates packed for handling in order to ascertain if such dates meet the grade regulations provided for in this part.

(b) Dates for further processing. Prior to shipment each handler shall, at his own expense, cause an inspection and certification to be made that dates handled by him for further processing are equal to the minimum grade standard except for character associated with moisture: Provided, That this inspection and certification requirement shall not apply to interhandler transfers of field run dates within the area of production.

(c) Identification and agency. All dates shipped shall be identified by seals, stamps, or other means prescribed by the committee and affixed to the containers by the handlers under the supervision of the committee or the designated inspectors. Inspection shall be performed by inspectors of the United States Department of Agriculture's Processed Products Standardization and Inspection Branch or such other inspection agency as may be recommended by the committee and approved by the Secretary. Handlers shall cause a copy of each inspection certificate to be furnished to the committee.

VOLUME REGULATION

§ 1003.44 Free and restricted percentages. (a) Whenever the committee finds that the available supply of marketable dates for any crop year exceeds or is likely to exceed the total trade demand therefor, and that limiting the volume to be sold in whole or pitted form of any or all varieties through establishing free and restricted percentages applicable to such supply would tend to effectuate the declared policy of the act, it shall recommend such percentages to the Secretary. If the Secretary finds, upon the basis of the committee's recommendation and supporting data or other information available to him, that the establishment of such percentages would tend to effectuate the declared policy of the act, he shall establish such percentages. The sum of the free and restricted percentages for any crop year shall equal 100 percent.

(b) The dates shipped by any handler in accordance with the provisions hereof shall be determined to be that handler's quota fixed by the Secretary within the meaning of section 8a (5) of the act. The terms of said section prescribe that any person wilfully exceeding such a quota and any other person knowingly participating or aiding in such action shall forfeit to the United States a sum equal to three times the then current market value of such excess.

§ 1003.45 Withholding restricted dates. (a) Whenever a regulation has been established for a crop year by the Secretary in accordance with § 1003.44, each handler, before or upon shipping dates, shall have withheld from shipment a quantity of marketable dates, or their equivalent in graded dates, having a weight equal to the restricted percentage referable to such shipment.

The weight to be set aside shall be determined by dividing the restricted percentage by the free percentage and applying the resultant withholding percentage, rounded to the nearest one-tenth of one percent, to the weight of dates shipped. The withholding percentage shall be established by the Secretary. The restricted weight of pitted dates shall be determined by dividing the shipping weight by 0.90 and applying the withholding percentage.

(b) Compliance by any handler with the withholding of restricted dates may be deferred to any date not later than January 31 of any crop year, upon request to the committee and when accompanied by a written undertaking that on or prior to such date, he will have fully satisfied his withholding obligation. Such undertaking shall be secured by a bond or bonds to be filed with, and acceptable to, the committee and with a surety or sureties acceptable to the committee, running in favor of the committee and the Secretary in an amount conditioned upon full compliance with such undertaking. amount shall be determined by multiplying the poundage of the deferred restricted obligation by a bonding rate per pound which would provide funds estimated to be sufficient for the committee to purchase on the open market a volume of dates equivalent to the deferred obligation. Such bonding rate shall be established annually, and modified as necessary, by the committee. Any sums collected through default by a handler on his bond shall be used by the committee to purchase dates to meet the violated restricted obligation, reimburse the committee for expenses relative to the default, and any excess money remaining shall be refunded to the defaulting handler. The dates so purchased by the committee shall be turned over to the defaulting handler for disposition as restricted dates. In the event the committee is unable to purchase a poundage of dates equal to the defaulted volume, the sums collected shall, after reimbursement of committee expenses in connection with the default. be distributed among all handlers other than the defaulting handler in proportion to the volume of certified dates handled during the crop year in which the default occurred.

(c) Dates may be certified for handling or for further processing at any time during a crop year and at the time of certification shall be inspected and identified by appropriate seals, stamps, or tags to be furnished by the committee and to be affixed to the containers by the handler under the direction and supervision of the committee or its designated inspectors at which time the assessment requirements provided in § 1003.72 and the restricted obligation with respect to such dates shall be met. Dates so certified may thereafter be carried over into the new crop year and need not pay the assessment nor meet the requirements of any free or restricted percentages established for such year.

(d) Dates withheld to meet the restricted obligation shall be stored at the expense of the handler, in storage of his own choosing and disposed of in accord-

ance with § 1003.55. All such dates shall be inspected and identified by appropriate seals, stamps, or tags to be furnished by the committee and to be affixed to the containers by the handler under the direction and supervision of the committee or its designated inspectors. All withholding and movement of restricted dates shall be subject to the supervision and accounting control of the committee and reports shall be filed as required by this part.

§ 1003.46 Revisions of percentages. The Secretary may, on recommendation of the committee submitted prior to January 31 of the crop year, or on the basis of other information available to him, increase the free percentage to conform with such new relation as may be found to exist between trade demand and available supply. Upon any revision in the free and restricted percentages the control obligation of each handler with respect to dates handled or certified for handling by him for the entire crop year shall be recomputed in accordance with such revised control percentages. The handler shall be permitted to select, insofar as practicable, under the supervision and direction of the committee, the particular dates to be removed from any dates withheld.

§ 1003.47 Assistance to handlers. The committee, on written request, may assist handlers in obtaining storage for restricted dates, in accounting for their control obligations or in acquiring dates to meet any deficiency in a handler's control obligation.

QUALIFICATIONS TO REGULATION

§ 1003.50 Application after end of crop year Unless otherwise specified the regulations and the bonding rates established for any crop year shall continue in effect with respect to all dates for which control obligations have not been previously met, until regulations and bonding rates are established for the new crop year. Thereupon the withholding obligations for all dates handled or certified for handling during such crop year shall be adjusted to the newly established percentages and a similar adjustment shall be made in any bond or bonds already given for that crop year.

§ 1003.51 Interhandler transfers. Transfers of dates may be made from one handler to another upon notice to and permission of the committee. If such transfer is wholly within the area of production, the assessment and withholding obligations shall be placed on the handler agreeing to assume them: Provided. That in the absence of the committee receiving notice of a specific agreement on such obigations, the buying handler shall be held accountable. If such transfer is from within the area of production to any point outside thereof, the assessment and withholding obligations shall be met by the handler within the area of production.

§ 1003.52 Exemption. The committee may exempt from regulation, upon written request of any producer or handler, the dates he sells to consumers through roadside stands, local date

shops, mail order or specialty outlets, if it determines that the particular request is not likely to materially interfere with the objectives of this part. All dates handled pursuant to exemptions under this section shall be reported to the committee in such manner and in such form as the committee may prescribe. The committee shall issue, with the approval of the Secretary, appropriate rules and regulations establishing the bases on which exemptions may be granted.

DISPOSITION OF OTHER THAN FREE DATES

- § 1003.55 Outlets for restricted or standard. Restricted dates and any standard grade but non-marketable dates may be disposed of through exportation to such countries as the committee may approve or by diversion in such form as rings, chunks, pieces, butter, macerated, paste, or other products which the committee determines to be appropriate and which will result in the dates moving into consumption in a form other than that of whole or pitted dates.
- § 1003.56 Outlets for substandard and culls. Substandard grade dates shall be disposed of in feed, non-table syrup, alcohol, brandy, macerated dates or such other outlets as the committee finds are non-competitive with-the outlets for free dates. Disposition of cull dates shall be limited to products not destined for human consumption as food.
- § 1003.57 Terminal date. Dates covered by §§ 1003.55 and 1003.56 shall be converted from their whole or pitted form or sold under firm contracts to manufacturers of approved products by September 30 of the subsequent crop year.
- § 1003.58 Safeguards. The committee may prescribe, with the approval of the Secretary such rules, regulations and safeguards as are necessary to prevent dates covered by §§ 1003.55 and 1003.56 from interfering with the objectives of this part.

REPORTS AND RECORDS

- § 1003.61 Reports of handler carryover Each handler shall file with the committee a written report of his carryover of dates as of January 1 and May 15 of any crop year and at such other times as the committee may prescribe. Such reports shall be filed within 15 days of the aforesaid dates.
- § 1003.62 Reports of dates shipped. Each handler who ships dates during a crop year shall submit to the committee, in such form and at such intervals as the committee may prescribe, reports showing the net weight of dates shipped by him and such other information pertinent thereto as the committee may specify.
- § 1003.63 Reports on restricted dates withheld. Each handler from time to time, on demand of the committee, shall file with it a report of the restricted dates withheld by him in satisfaction of his withholding obligation. Such reports shall show such information as the com-

mittee may require and may be in such form as the committee may prescribe.

- § 1003.64 Reports on disposition of restricted. Each handler disposing of any quantity of restricted dates held by him shall give the committee the following reports:
- (a) Prior to the date of planned disposition, a notice of intention to dispose.
- (b) Upon completion of disposition, a notice, including pertinent data, of the completion of disposition.
- § 1003.65 Other reports. Upon request of the committee each handler shall furnish to it in such manner and at such times as it prescribes, such other information as will enable the committee to perform its duties and exercise its powers hereunder.
- § 1003.66 Certification of reports. All reports submitted to the committee as required in this part shall be certified to the United States Department of Agriculture and to the committee as to the completeness and correctness of the information therein.
- § 1003.67 Confidential information. All data or other information constituting a trade secret or disclosing a trade position or business condition shall be received by, and kept in the custody of, one or more designated employees of the committee and information which would reveal the circumstances of a single handler shall be disclosed to no person other than the Secretary.
- § 1003.68 Verification of reports. For the purpose of checking and verifying reports made by handlers to it, the committee, through its designated employees, shall have access to handler premises wherein dates are held and, at any time during reasonable business hours, shall be permitted to examine any dates held and any and all records with respect to dates held or disposed of by such handlers. Handlers shall furnish labor necessary to facilitate such examinations at no expense to the committee. All handlers shall maintain complete records on the handling, withholding and disposition of dates. Such records shall be retained by handlers for not less than two years subsequent to the termination of each crop year.

EXPENSES AND ASSESSMENTS

- § 1003.71 Expenses. The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred by it during each crop year for the maintenance and functioning of the committee and for such other purposes determined to be appropriate. The recommendation of the committee as to total expenses and allocation thereof for each crop year, together with all data supporting such recommendation, shall be submitted to the Secretary within a reasonable time after the marketing policy for each crop year is recommended. Expenses incurred prior to August 1, 1955 shall be paid from funds collected during the crop year beginning August 1, 1955.
- § 1003.72 Assessments. The Secretary shall fix rates of assessments for each crop year to be paid by each han-

dler with respect to dates handled or certified for handling. At any time during or after a crop year the Secretary may increase such assessment rates to secure sufficient funds to cover the expenses authorized in § 1003.71. Any such increase shall apply to all dates handled during the crop year. The rate of assessment for the initial crop year is hereby established at fifteen (15) cents per hundredweight. The committee may accept the payments of assessments in advance and may borrow money in any amount not to exceed ten percent of the estimated expenses set forth in its budget for the then crop year. The assessment weight of pitted dates shall be determined by dividing the shipping weight by 0.90.

§ 1003.73 Requirement for payment. Each handler shall pay his pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred during each crop year. Each handler's share of such expenses shall be based on the ratio of the total quantity of dates handled or certified for handling by him to the total quantity of such dates handled or certified for handling by all handlers during each crop year.

§ 1003.74 Refunds. Excess funds held by the committee at the conclusion of a crop year may be used to defray expenses for no more than the ensuing four months and thereafter, within a reasonable time, the committee shall credit or, upon demand, refund the aforesaid excess to each handler on the basis of the ratio of the total amount paid by him to the total amount paid by all handlers.

MISCELLANEOUS PROVISIONS

- § 1003.77 Personal liability. No member or alternate member of the committee, or any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or any other person for errors in judgment, mistakes, or other acts either of commission or omission, as such member, alternate member, agent, or employee, except for acts of dishonesty, willful misconduct or gross negligence.
- § 1003.78 Separability. If any provision of this part is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability of this part to any other person, circumstance, or thing shall not be affected thereby.
- § 1003.79 Derogation. Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.
- § 1003.80 Duration of immunities. The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon its termi-

nation except with respect to acts done livered by the committee or its members, under and during its existence.

§ 1003.81 Agents. The Secretary may, by a designation in writing, name any person, including any officer or employee of the United States Government, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 1003.82 Effective time, suspension, or termination—(a) Effective time. The provisions of this part, as well as any amendments hereto, shall become effective at such time as the Secretary may declare, and shall continue in force until terminated or suspended in one of the ways hereinafter specified in this section.

(b) Suspension or termination—(1) Failure to effectuate policy of act. The Secretary shall terminate or suspend the operation of any or all of the provisions of this part, whenever he finds that such provisions do not tend to effectuate the

declared policy of the act.

(2) When favored by growers. The Secretary shall terminate the provisions of this part at the end of any crop year whenever he finds that such termination is favored by a majority of the growers of dates who, during that crop year, have been engaged in the production for market of dates in the area of production: Provided, That such majority have, during such period, produced for market more than 50 percent of the volume of such dates produced for market within said area; but such termination shall be effective only if announced on or before June 1 of the then current crop year.

(3) If enabling legislation is terminated. The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them

cease to be in effect.

(c) Proceedings after termination— (1) Designation of trustees. Upon the termination of the provisions hereof, the members of the committee then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the committee, of all funds and property then in the possession or under the control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(2) Duties of trustees. Said trustees shall continue in such capacity until discharged by the Secretary shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and the joint trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such persons full title and right to all funds, property, and claims vested in the committee or the joint trustees pursuant hereto.

(3) Obligations of persons other than committee members and trustees. Any person to whom funds, property, or claims have been transferred or depursuant to this section, shall be subject to the same obligations imposed upon the members of the said committee and upon the said joint trustees.

§ 1003.83 Effect of termination or amendment. Unless otherwise expressly provided by the Secretary, the termination hereof or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not

(a) Affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued hereunder,

(b) Release or extinguish any violation of this part or of any regulation issued hereunder, or

(c) Affect or impair any rights or remedies of the Secretary or of any other person, with respect to any such violation.

§ 1003.84 Amendments. Amendments hereto may be proposed, from time to time, by any person or by the committee.

Issued at Washington, D. C., this 12th day of July 1955, §§ 1003.1 through 1003.31, 1003.34 through 1003.36, 1003.61, 1003.65 through 1003.63, 1003.71, that portion of § 1003.72 which authorizes the committee to accept payments of assessments in advance and to borrow money, and §§ 1003.77 through 1003.84 to be, and become, effective as of the date of publication hereof in the FEDERAL REGISTER, and the remaining provisions to be, and become, effective September 1. 1955.

[SEAL]

EARL L. BUTZ. Assistant Secretary.

Chapter XI-Agricultural Conservation Program Service, Department of Agriculture

[Bulletin NSCP-2001]

PART 1106-NAVAL STORES CONSERVATION PROGRAM

SUBPART G-1956

Through the 1956 Naval Stores Conservation Program (hereinafter referred to as "this Program") the Federal Government will share with turpentine farmers the cost of carrying out approved conservation practices in accordance with the provisions of this bulletin and such modifications thereof as may hereafter be made. Cost-shares are predicated upon the economic use and conservation of soil and timber resources on turpentine farms, and computed on the faces in the tract or drift where an approved conservation practice is carried out.

This program provides cost-sharing for conservation practices only on turpentine farms having tracts or drifts of faces which were installed during, or after, the 1952 season.

AUTHORITY AND AVAILABILITY OF FUNDS, APPLICABILITY AND ADMINISTRATION

1106.732 Authority. 1106.733 Availability of funds. 1106.734 Applicability. 1103.735 Administration.

AUTHORITY: §\$ 1106.701 to 1106.735 issued under sec. 4 40 Stat. 164; 16 U. S. C. 530d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended; Pub. Law 40, 84th Cong.; 16 **T. S. C.** 5903-5904.

GENERAL PROVISIONS

§ 1106.701 General requirements. No tract or drift can qualify for cost-sharing under more than one conservation practice other than as provided for under practices specified in §§ 1106.715 and 1106.716. No tract or drift having virgin faces installed can qualify for cost-sharing unless the shoulder of the first streak on any face on a round tree which is not deformed is less than 18 inches from the ground. In each of the practices the faces are to be worked sufficiently to obtain at least one dipping of gum.

§ 1106.702 Required performance— (a) Approved conservation practices. Each participating producer shall, on every turpentine farm owned or operated by him during the 1956 turpentine season carry out one of the approved conservation practices in every tract or drift of faces that were installed during the 1952, 1953, 1954, 1955, or 1956 season, unless the Forest Service approves face installations made without carrying out a conservation practice. In cases where such approval is given for specific tracts or drifts of the turpentine farm, no cost will be shared for any faces in such tracts or drifts.

(b) Practices requiring more than one year for completion. (1) Cost-shares may be approved under this program for the completion of a component of a practice as prescribed in §§ 1106.710, 1106.711, 1106.712, 1106.713, 1106.714, and 1106.717 · Provided, The producer agrees in writing to complete all remaining components of the practice in accordance with all applicable specifications and program provisions within the time prescribed by the Forest Service if cost-sharing is offered to him therefor under a subsequent program.

(2) Any advance cost-share so paid shall be refunded if the remaining components of the practice are not completed within the time prescribed by the Forest Service: Provided, The producer is offered cost-sharing under a subsequent program for the completion of such components. The extension of the period for completion of the components shall not constitute a commitment to approve cost-shares therefor under a subsequent program. Approval of cost-sharing for other practices under a subsequent program may also be denied until the remaining components are completed.

§ 1106.703 Fire protection. Each producer shall during the 1956 turpentine season cooperate with any existing cooperative fire control system serving the general area where his turpentine farm is located, unless he is otherwise following approved forest fire protection on his turpentine farm.

§ 1106.704 Bark-bar requirement. No back face shall be worked on any tree unless a live bark-bar on each side of the back face is provided and maintained throughout the 1956 turpentine season, the total of the two bark-bars being not less than 7 inches in width, measured horizontally along the bark surface at the narrowest point: Provided, however That the restriction with respect to the width of the bark-bar shall not apply to any tree which has on it two or more old faces, including any back face installed prior to 1956. Faces having bark-bars totaling less than 7 inches shall not be worked in a manner that will result in leaving bark-bars less than those of former workings measured at the narrowest point.

§ 1106.705 Inspection assistance. Each producer shall assist representatives of the Forest Service in the administration of this program by

(a) Giving them free access to his turpentine farm or farms;

(b) Counting all faces and keeping written records thereof separately by tracts and drifts:

(c) Furnishing count records and satisfactory evidence of control of faces to the local inspector (area forester) when requested:

(d) Furnishing information on burned areas, cutting operations, and interest in other turpentine farms as requested.

(e) Furnishing competent labor to assist the local inspector (area forester) in counting faces;

(f) Submitting an application for payment of Federal cost-shares (Form NSCP 2003) and other prescribed forms;

(g) Notifying the Forest Service promptly of any change in ownership or control; and

(h) Otherwise facilitating the work of the inspector (area forester) in checking compliance with the terms and conditions of this program.

CONSERVATION PRACTICES AND RATES OF FEDERAL COST-SHARES

§ 1106.710 Working only 9 inch d. b. h. or larger trees—(a) Purpose. To restrict turpentining to the more productive timber, to conserve the worked trees, to protect and permit undisturbed growth of the uncupped trees and to conserve the soil, water, and timber resources.

(b) Description of practice. This practice consists of installing and working faces and raising the cups and tins on 9 inch d. b. h. or larger trees over a period of three to five years. Costsharing may be approved under the 1956 Program for only the component parts of the practice which are completed during the program year. The producer must complete all the remaining components of the practice in accordance with good forestry practices and all applicable requirements of this program if cost-sharing is offered to him therefore under a subsequent program. Separate rates of cost-sharing have been established for each component part of the practice.

(c) Eligible faces. Trees on which faces are installed shall be selected in a manner that will result in having no faces (except back faces on trees having a worked-out face) on trees which are less than 9 inches d. b. h. and only one face on trees less than 14 inches d. b. h.. Provided, That the installation of two cups on trees less than 14 inches d. b. h. in any tract or drift may be approved by the Forest Service as meeting the performance requirements of this paragraph where the Forest Service has determined such action conforms to sound forest conservation practice.

(d) Components of practice and rates of cost-sharing—(1) Initial installation and first year working of 9 inch d. b. h. or larger trees—2 cents per face. The cost-share for this component is applicable only to tracts or drifts having only

eligible virgin working faces, i. e., faces installed for the first working during the 1956 season. If faces have been installed confrary to the requirements for eligible faces, the cups and tins for such faces shall be removed within 30 days after being discovered unless a longer period of time for their removal is ap-

proved by the Forest Service.

(2) Working of faces for second, third, fourth, or fifth year-1/2 cent per face. The cost-share for this component is applicable under the 1956 Program only to faces which were installed and met the eligible face requirements for this practice during the 1952, 1953, 1954, or 1955 season; together with any new faces on 9 inch d. b. h. or larger trees that may have been installed within such tracts or drifts in 1956 in the second or third year's working to complete cupping of the stand or replace normal mortality. If faces have been installed contrary to the requirements for eligible faces or in excess of that necessary to complete cupping of the stand or replacement of normal mortality, the cups and tins on such faces shall be removed within 30 days after being discovered, unless a longer period of time for their removal is approved by the Forest Service. If such faces are not removed within the period approved by the Forest Service there may be withheld or required to be refunded the entire cost-shares for the tract or drift previously paid to the producer who installed the improper faces.

(3) Initial use of double-headed nails in the initial installation or in the raising of cups and tins to conserve the worked portion of the tree—1/2 cent per face. Use of this component is optional. The cost-share for this component is applicable to (i) installation of cups and tins on virgin faces installed for the first working during the 1956 season, or (ii) to the first elevation of cups and tins on faces meeting the requirements of this practice during the 1952, 1953, 1954, or 1955 season. When cups and tins are installed or raised with double-headed nails they shall be attached to the face in a manner that will minimize the loss of gum and conserve the worked portion of the tree. All nails and tins below the raised cup and above the first virgin streak shall be removed. When costs are shared under this component the producer must continue to use doubleheaded nails in all subsequent elevations of the cups and tins on the faces in the tracts or drifts. Double-headed nails must be used in each raising of cups and tins on faces installed for the first working during the 1956 season on which the cost is shared. This component is not applicable where Practice 1106.715 is used.

§ 1106.711 Working only 10 inch d. b. h. or larger trees—(a) Purpose. To restrict turpentining to the more productive timber, to conserve the worked trees, to protect and permit undisturbed growth of the uncupped trees and to conserve the soil, water, and timber resources.

(b) Description of practice. This practice consists of installing and working faces and raising the cups and tins on 10 inch d. b. h. or larger trees over a period of three to five years. Costsharing may be approved under the 1956 Program for only the component parts of the practice which are completed during the program year. The producer must complete all the remaining components of the practice in accordance with good forestry practices and all ap-

plicable requirements of this program if cost-sharing is offered to him therefor under a subsequent program. Separate rates of cost-sharing have been established for each component part of the practice.

(c) Eligible faces. Trees on which faces are installed shall be selected in a manner that will result in having no faces (except back faces on trees having a worked-out face) on trees which are less than 10 inches d. b. h. and only one face on trees less than 14 inches d. b. h.. Provided, That the installation of two cups on trees less than 14 inches d. b. h. in any tract or drift may be approved by the Forest Service as meeting the performance requirements of this paragraph where the Forest Service has determined such action conforms to sound forest conservation practice.

(d) Components of practice and rates of cost-sharing—(1) Initial installation and first year working of 10 inch d. b. h. or larger trees—3½ cents per face. The cost-share for this component is applicable only to tracts or drifts having only eligible virgin working faces, i. e., faces installed for the first working during the 1956 season. If faces have been installed contrary to the requirements for eligible faces, the cups and tins for such faces shall be removed within 30 days after being discovered unless a longer period of time for their removal is approved by the Forest Service or the tract or drift will be considered only for qualification for cost-shares under the practice specified in § 1106.710.

(2) Working of faces for second, third, fourth, or fifth year-2 cents per face. The cost-share for this component is applicable under the 1956 Program only to faces which were installed and met the eligible face requirements for this practice during the 1952, 1953, 1954, or 1955 season; together with any new faces on 10 mch d. b. h. or larger trees that may have been installed within such tracts or drifts in 1956 in the second or third year's working to complete cupping of the stand or replace normal mortality. New faces installed on 10 inch d. b. h. or larger trees in these tracts or drifts in excess of that necessary to complete cupping of the stand or replacement for normal mortality in the tract or drift will disqualify the tracts or drifts for cost-sharing under this practice. however, new faces have been installed on trees in excess of that necessary to complete cupping of the stand or normal mortality replacement or on trees under 10 mches d. b. h. the entire tracts or drifts will be considered only for qualification under the provisions of § 1106.710 (d) (2) and there may be withheld or required to be refunded, 2 cents per face for each face in the tracts or drifts in which such improper installation occurs and for which costs were shared in 1952, 1953, 1954, or 1955.

(3) Initial use of double-headed nails in the initial installation or in the raising of cups and tins to conserve the worked portion of the tree—½ cent per face. Use of this component is optional. The cost-share for this component is applicable to (i) installation of cups and tins on virgin faces installed for the first working during the 1956 season, or

(ii) to the first elevation of cups and tins on faces meeting the requirements of this practice during the 1952, 1953, 1954, or 1955 season. When cups and 1954, or 1955 season. When cups and tins are installed or raised with doubleheaded nails they shall be attached to the face in a manner that will minimize the loss of gum and conserve the worked portion of the tree. All nails and tins below the raised cup and above the first virgin streak shall be removed. When costs are shared under this component the producer must continue to use double-headed nails in all subsequent elevations of the cups and tins on the faces in the tracts or drifts. Doubleheaded nails must be used in each raising of cups and tins on faces installed for the first working during the 1956 season on which the cost is shared. This component is not applicable where the practice specified in § 1106.715 is

FEDERAL REGISTER

§ 1106.712 Working only 11 inch d.b.h. or larger trees—(a) Purpose. To restrict turpentining to the more productive timber, to conserve the worked trees, to protect and permit undisturbed growth of the uncupped trees and to conserve the soil, water, and timber resources.

(b) Description of practice. This practice consists of installing and working faces and raising the cups and tins on 11 inch d. b. h. or larger trees over a period of three to five years. Costsharing may be approved under the 1956 Program for only the component parts of the practice which are completed during the program year. The producer must complete all the remaining components of the practice in accordance with good forestry practices and all applicable requirements of this program if cost-sharing is offered to him therefor under a subsequent program. Separate rates of cost-sharing have been established for each component part of the practice.

(c) Eligible faces. Trees on which faces are installed shall be selected in a manner that will result in having no faces (except back faces on trees having a worked-out face) on trees which are less than 11 inches d. b. h. and only one face on trees less than 14 inches d. b. h.. Provided, That the installation of two cups on trees less than 14 inches d. b. h. in any tract or drift may be approved by the Forest Service as meeting the performance requirements of this paragraph where the Forest Service has determined such action conforms to sound forest conservation practice.

(d) Components of practice and rates of cost-sharing—(1) Initial installation and first year working of 11 inch d. b. h. or larger trees—4½ cents per face. The cost-share for this component is applicable only to tracts or drifts having only eligible virgin working faces, i. e., faces installed for the first working during the 1956 season. If faces have been installed contrary to the requirements for eligible faces, the cups and tins for such faces shall be removed within 30 days after being discovered unless a longer period of time for their removal is approved by the Forest Service or the tract or drift will be considered only for qualification

for cost-shares under the practice specifled in § 1106.710.

(2) Working of faces for second, third, fourth, or fifth year—2½ cents per face.
The cost-share for this component is applicable under the 1956 Program only to faces which were installed and met the eligible face requirements for this practice during the 1952, 1953, 1954, or 1955 season; together with any new faces on 11 inch d. b. h. or larger trees that may have been installed within such tracts or drifts in 1956 in the second or third year's working to complete cupping of the stand or replace normal mortality. New faces installed on 11 meh d. b. h. or larger trees in these tracts or drifts in excess of that necessary to complete cupping of the stand or replacement for normal mortality in the tract or drift will disqualify the tracts or drifts for cost-sharing under this practice. however, new faces have been installed on trees in excess of that necessary to complete cupping of the stand or normal mortality replacement or on trees under 11 inches d. b. h., the entire tracts or drifts will be considered only for qualification under the provisions of § 1106.710 (d) (2) and there may be withheld or required to be refunded, 21/2 cents per face for each face in the tracts or drifts in which such improper installation occurs and for which costs were shared in 1952, 1953, 1954, or 1955.

(3) Initial use of double-headed nails in the initial installation or in the raising of cups and tins to conserve the worked. portion of the tree-1/2 cent per face. Use of this component is optional. The cost-share for this component is applicable to (i) installation of cups and tins on virgin faces installed for the first working during the 1956 season, or (ii) to the first elevation of cups and tins on faces meeting the requirements of this practice during the 1952, 1953, 1954, or 1955 season. When cups and tins are installed or raised with double-headed nails they shall be attached to the face in a manner that will minimize the loss of gum and conserve the worked portion of the tree. All nails and tins below the raised cup and above the first virgin streak shall be removed. When costs are shared under this component the producer must continue to use doubleheaded nails in all subsequent elevations of the cups and tins on the faces in the tracts or drifts. Double-headed nails must be used in each raising of cups and tins on faces installed for the first working during the 1956 season on which the cost is shared. This component is not applicable where the practice specified in § 1106.715 is used.

§ 1106.713 Restricting turpentining to previously worked trees—(a) Purpose. To restrict turpentining to trees having a previously worked face to improve the quality of the stand, to conserve the worked trees, to protect and permit undisturbed growth of the round trees and to conserve the soil, water, and timber resources.

(b) Description of practice. This practice consists of installing and working faces and raising the cups and tins on trees having a previously worked face over a period of three to five years. Cost-

sharing may be approved under the 1956 Program for only the component parts of the practice which are completed during the program year. The producer must complete all the remaining components of the practice in accordance with good forestry practices and all applicable requirements of this program if cost-sharing is offered to him therefor under a subsequent program. Separate rates of cost-sharing have been established for each component part of the practice.

(c) Eligible faces. Trees on which faces are installed shall be selected in a manner that will result in having no

faces on round trees.

- (d) Components of practice and rates of cost-sharing—(1) Initial installation and first year working of faces on previously worked trees-5 cents per face. The cost-share for this component is applicable only to tracts or drifts having only eligible virgin working faces, i. e., new faces installed for the first working during the 1956 season. If faces have been installed contrary to the requirements for eligible faces, the cups and tins for such faces shall be removed within 30 days after being discovered unless a longer period of time for their removal is approved by the Forest Service or the tract or drift will be considered only for qualification for cost-shares under the practice specified in §§ 1106.710, 1106.711, or 1106.712.
- (2) Working of faces for second, third, fourth, or fifth year-21/2 cents per face. The cost-share for this component is applicable under the 1956 Program only to faces which were installed and met the eligible face requirements for this practice during the 1952, 1953, 1954, or 1955 season; together with any new faces on previously worked trees that may have been installed within such tracts or drifts in 1956 in the second or third year's working to complete cupping of the stand or replace normal mortality. New faces installed on round trees in these tracts or drifts which earned a payment for the restricted cupping practice will disqualify the tracts or drifts for cost-sharing under this practice. If, however, new faces have been installed on any round trees the entire tracts or drifts will be considered only for qualification under the provisions of § 1106.710 (d) (2) There may be withheld or required to be refunded, 3 cents per face for each face in the tracts or drifts in which such improper installation occurs and for which costs were shared in 1952, 1953, 1954, or 1955.
- (3) Initial use of double-headed nails in the initial installation or in the raising of cups and tins to conserve the worked portion of the tree-1/2 cent per face. Use of this component is optional. The cost-share for this component is applicable to (i) installation of cups and tins on virgin faces installed for the first working during the 1956 season, or (ii) to the first elevation of cups and tins on faces meeting the requirements of this practice during the 1952, 1953, 1954, or 1955 season. When cups and tins are installed or raised with double-headed nails they shall be attached to the face in a manner that will minimize the loss

of gum and conserve the worked portion of the tree. All nails and tins below the raised cup and above the first virgin streak shall be removed. When costs are shared under this component the producer must continue to use doubleheaded nails in all subsequent elevations of the cups and tins on the faces in the tracts or drifts. Double-headed nails must be used in each raising of cups and tins on faces installed for the first working during the 1956 season on which the cost is shared. This component is not applicable where the practice specified ın § 1106.715 ıs used.

§ 1106.714 Working only selectively marked trees—(a) Purpose. To restrict turpentining to trees needing removal to thin the stand and improve its quality, to conserve the worked trees, to protect and permit undisturbed growth of the uncupped trees and to conserve the soil,

water, and timber resources.

(b) Description of practice. practice consists of installing and working faces and raising the cups and tins on selectively marked trees over a period of three to five years. Cost-sharing may be approved under the 1956 Program for only the component parts of the practice which are completed during the program year. The producer must complete all the remaining components of the practice in accordance with good forestry practices and all applicable requirements of this program if cost-sharing is offered to him therefor under a subsequent program. Separate rates of cost-sharing have been established for each component part of the practice.

(c) Eligible faces. Only trees which should be removed to improve the timber stand will be cupped. Cupping shall be limited to fifty percent (50%) or less of the round trees 9 inches or more d. b. h.. Provided, That not less than 25 round trees per acre 9 inches or more d. b. h. are left uncupped and well distributed over the area.

(d) · Components of practice and rates of cost-sharing—(1) Initial installation and first year working of selectively marked trees-7 cents per face. The cost-share for this component is applicable only to tracts or drifts having only eligible virgin working faces, i. e., faces installed for the first working during the 1956 season. If faces have been installed contrary to the requirements for eligible faces, the area will be considered only for qualification for cost-shares under one of the diameter cupping practices specified in §§ 1106.710, 1106.711, or 1106.712.

(2) Working of faces for second, third, fourth, or fifth year—3 cents per face. The cost-share for this component is applicable under the 1956 Program only to faces which were installed and met the eligible face requirements for this practice during the 1952, 1953, 1954, or 1955 season. New faces installed on round trees in these tracts or drifts will disqualify the tracts or drifts for cost-sharing under this practice. If, however, new faces have been installed on round trees the entire tracts or drifts will be considered only for qualification under the provisions of § 1106.710 (d) There may be withheld or required to be refunded, 4 cents per face for each

face in the tracts or drifts in which such improper installation occurs and for for which costs were shared in 1952, 1953, 1954, or 1955.

(3) Initial use of double-headed nails in the initial installation or in the raising of cups and tins to conserve the worked portion of the tree-1/2 cent per face. Use of this component is optional. The cost-share for this component is applicable to (i) installation of cups and tins on virgin faces installed for the first working during the 1956 season, or (ii) to the first elevation of cups and tins on faces meeting the requirements of this practice during the 1952, 1953, 1954, or 1955 season. When cups and tins are installed or raised with double-headed nails they shall be attached to the face in a manner that will minimize the loss of gum and conserve the worked portion of the tree. All nails and tins below the raised cup and above the first virgin streak shall be removed. When costs are shared under this component the producer must continue to use doubleheaded nails in all subsequent elevations of the cups and tins on the faces in the tracts or drifts. Double-headed nails must be used in each raising of cups and tins on faces installed for the first working during the 1956 season on which the cost is shared. This component is not applicable where the practice specified in § 1106.715 is used.

§ 1106.715 Initial use of spiral gutters or Varn aprons and double-headed nails—(a) Purpose. To minimize damage to the tree in installing faces for the virgin year or in the first elevation and to conserve the worked portion of the tree.

(b) Description of practice. This practice consists of using spiral gutters or Varn aprons attached with doubleheaded nails when cups and tins are initially installed on the tree or when cups and tins are elevated for the first time.

(c) Eligible faces. Faces on trees installed to meet the requirements of §§ 1106.710, 1106.711, 1106.712, 1106.713, 1106.714, and 1106.717 will qualify for this practice.

(d) Components of practice and rates of cost-sharing—(1) Initial use of spiral gutters or Varn aprons in the virgin installation or in the first elevation of cups and tins—1½ cents per face. (i) The cost-share rate established for initiating this practice is limited to tracts or drifts having only virgin working faces, 1. e., faces installed for the first working during the 1956 season or faces upon which the cups and tins are elevated for the first time during the 1956 season. On accepting cost-sharing for this practice the producer agrees to use the spiral gutter or the Varn apron and doubleheaded nails to attach the tins in all subsequent raisings and attachment of tins to the face.

(ii) Cups and tins shall be installed in a manner that will minimize the loss of gum and restrict the amount of damage to the tree. Spiral gutters or Varn aprons shall be used and the tins shall be attached to the tree with double-headed nails. In smoothing the tree and seating the cup for the virgin installation exposure of wood shall be limited to areas on the tree having burls, ridges, or other deformities.

(iii) The cost-share for this practice is in addition to that authorized for meeting the requirements of §§ 1106.710, 1106.711, 1106.712, 1106.713, 1106.714, or 1106.717.

§ 1106.716 Removal of cups and tins from faces on small trees—(a) Purpose. To encourage producers, who have not participated in the 1954 or 1955 Programs, to discontinue working small unproductive trees, to promote improved naval stores and forestry practices, to improve productivity of the woodland and to conserve the soil, water and timber resources.

(b) Description of practice. This practice consists of removing the cups and tins and discontinuing the working of small unproductive timber and meeting all other requirements for participation in this program.

(c) Eligible faces. All faces, installed for the first working in 1956, on trees under 9 inches d. b. h. and all but one face on trees between 9 and 14 inches d. b. h. having two or more faces. Working of faces shall be discontinued and cups and tins removed by tracts or drifts to meet the eligible face requirements of § 1106.710. Only producers who did not participate in the 1954 or 1955 programs are eligible for cost-sharing under this practice.

(d) Components of practice and rates of cost-sharing—(1) Removal of cups and tins on trees under 9 inches d. b. h. and on trees between 9 and 14 inches d. b. h. having more than one face—7½ cents per face. The cost-share for this component is applicable to faces discontinued by removal of cups and tins to permit the tract or drift to meet the eligible face requirements of § 1106.710.

§ 1106.717 Pilot plant tests of new methods and equipment—(a) Purpose. To conduct controlled demonstrations or experiments to test values of new methods and equipment for gum production.

(b) Description of practice. This practice consists of carrying out practical demonstrations or tests of new methods or equipment according to requirements of the Forest Service.

(c) Eligible faces. Only faces on trees in selected tracts used in controlled demonstrations or tests carried out in accordance with provisions prescribed by the Forest Service are eligible for cost-sharing.

(d) Components of practice and rates of cost-sharing. (1) Eight cents per face for faces meeting the requirements of § 1106.710.

(2) Eleven cents per face for faces meeting the requirements of §§ 1106.711, 1106.712, 1106.713, and 1106.714.

GENERAL PROVISIONS RELATING TO FEDERAL COST-SHARING

§ 1106.720 Increase in small Federal cost-shares. The total payment computed for any producer with respect to his turpentine farm shall be increased as follows: (a) Any Federal cost-sharing amounting to 71 cents or less shall be increased to \$1.00; (b) any Federal cost-

sharing amounting to more than 71 cents but less than \$1.00 shall be increased by 40 percent; (c) any Federal cost-sharing amounting to \$1.00 or more shall be increased in accordance with the following schedule:

§ 1106.721 Maintenance of practices. The sharing of costs by the Federal Government for performance of approved practices included in this program will be subject to the condition that the producer with whom the costs are shared will maintain such practices in accordance with good forestry practices during the life of the face as long as the timber remains under his control. The producer shall not be expected to maintain and complete the practice when prevented by destruction of the timber by fire, weather, insects, diseases, or other conditions beyond his control.

§ 1106.722 Practices defeating purposes of programs. If the Forest Service finds that any producer has adopted or participated in any practice which tends to defeat the purposes of this program or previous programs, it may withhold or require to be refunded all or any part of any cost-share which has been or otherwise would be made to such producer under this program. Practices which tend to defeat the purposes of this and previous programs shall include, but are not restricted to the following:

(a) The cutting contrary to good forestry practices of turpentine trees in drifts or tracts (including current nonworking areas) on which costs have been or would be shared under this or the 1952, 1953, 1954, or 1955 Programs. There may be withheld or required to be refunded the amount previously paid but not to exceed 3 cents per face for each face for which costs were shared in 1952, 1953, 1954, 1955, or 1956 in the tracts or drifts in which such cutting occurs. Conformity to the following rules shall be considered good cutting practice:

(1) When turpentine trees are cut for thinnings at least 150 trees per acre of approximately the same size as the trees which are cut should be left uncut and undamaged and well distributed over the cutting area.

(2) When turpentine trees are cut in a harvest cutting at least 500 turpentine trees per acre shall be left uncut and undamaged or six thrifty turpentine seed trees per acre, 9 inches d. b. h. or more shall be left uncut and undamaged, or if clear cut artificial planting of at least 500 trees per acre will be accomplished prior to April 1, 1957.

(b) The burning by the producer on any drift or tract of his turpentine farm which will destroy natural reforestation on land which is not fully stocked with turpentine trees or which will result in damage to established turpentine tree reproduction. There may be withheld or required to be refunded all or any part of cost-shares earned under this program on the drifts or tracts in which such improper burning occurs.

(c) The installation of new faces on round trees less than 9 inches d. b. h. or more than one face on round trees less than 14 inches d. b. h. in tracts or drifts having working faces installed during or prior to the 1951 turpentine season. There may be withheld or required to be refunded 2 cents per face for each working face installed during or prior to 1951 in the tracts or drifts in which such installation occurs.

§ 1106.723 Federal cost-shares not subject to claims. Any Federal cost-share, or portion thereof, due any person shall be determined and allowed without regard to questions of title under State law without deduction of claims for advances (except as provided in § 1106.724 and except for indebtedness to the United States subject to set-off under orders issued by the Secretary (Part 1109 of this chapter) and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 1106.724 Assignments. Any producer who may be entitled to any Fed-

eral cost-share under the 1956 Program may assign his right thereto, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1956. No assignment will be recognized unless it is made in writing on Form ACP-69 in accordance with the applicable instructions (ACP-70) witnessed, however, by an inspector or the Program Supervisor of the Forest Service and filed with the Forest Service, Valdosta, Georgia.

§ 1106.725 Death, incompetency, or disappearance of producer In case of death, incompetency, or disappearance of any producer, his share of cost-sharings shall be paid to his successor, determined in accordance with the provisions of the regulations in ACP-122, as amended (Part 1108 of this chapter)

§ 1106.726 Maximum Federal cost-share limitation. The total of all cost-shares under the 1956 Naval Stores Conservation and 1956 Agricultural Conservation Programs to any person with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) for approved practices which are not carried out under pooling agreements shall not exceed the sum of \$1,500, and for all approved practices, including those carried out under pooling agreements, shall not exceed the sum of \$10,000.

§ 1106.727 Evasion. All or any part of any Federal cost-share which has been or otherwise would be made to any producer participating in this program may be withheld or required to be refunded if he has adopted or participated in adopting any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means which was designed to evade, or which has the effect of evading, the provisions of § 1106.726.

APPLICATION FOR PAYMENT OF FEDERAL COST-SHARES

§ 1106.728 Persons eligible to file application for payment of Federal costshares. An application for payment of Federal cost-shares may be filed by any producer who is working faces for the production of gum naval stores, during the 1956 turpentine season, which were installed during or after the 1952 season. If one producer conducts the operation of a turnpentine farm during a portion of the 1956 turpentine season and another producer conducts the operation of the turpentine farm during the remainder of the season, the producer who completes the component or components of the conservation practices shall file the application.

§ 1106.729 Time and manner of filing applications and required information. Payment of Federal cost-shares will be made only when a report of performance is submitted to the Forest Service on or before January 15, 1957, on the prescribed form (NSCP-2003) Application for Payment. Payment of Federal cost-shares may be withheld from any producer who fails to file any form or furnish any information required with

respect to any turpentine farm which is being operated by him.

APPEALS

§ 1106.730 Appeals. Any producer may, within 15 days after notice thereof is forwarded to or made available to him, request the Regional Forester in writing to review the recommendation or determination of the Program Supervisor in any matter affecting the right to or the amount of his Federal cost-shares with respect to the producer's turpentine farm. The Regional Forester shall notify the producer of his decision in writing within 30 days after the submission of the appeal. If the producer is dissatisfied with the decision of the Regional Forester he may, within 15 days after the decision is forwarded to or made available to him, request the American Turpentine Farmers Association Cooperative, Valdosta, Georgia, in writing to appoint a committee of fellow producers to review the case; if the committee does not concur with the decision of the Regional Forester, the producer may request the Chief of the Forest Service to review the case and render his decision, which shall be final.

DEFINITIONS

§ 1106.731 Definitions—(a) Gum naval stores. Crude gum (oleoresin) gum turpentine and gum rosin produced from living trees.

(b) Producer Any person, firm, partnership, corporation, or other business enterprise, doing business as a single legal entity, producing gum naval stores from turpentine trees controlled through fee ownership, cash lease, percentage lease, share lease, or other form of control.

(c) Turpentine tree. Any tree of either of the two species, longleaf pine (Pinus palustris) or slash pine (Pinus elliottii Engelm)

(d) Turpentine farm. This includes (1) land growing turpentine trees, owned or leased by a producer in one general locality, which are currently being worked for gum naval stores, herein referred to as a working area; and (2) all commercially valuable or potentially valuable forest land, owned by a producer on which turpentine trees are growing and which are not being currently worked for gum naval stores, herein referred to as a non-working area.

(e) *Tract.* A portion of a working area having a continuous stand of trees supporting faces of one age class or intermingled age classes.

(f) *Drift*. A portion or subdivision of a tract set apart for convenience of operation or administration.

(g) Turpentine season. The entire calendar year, or, if a farm is operated less than the full calendar year, that period within the calendar year during which a producer is operating his turpentine farm for the production of gum naval stores.

scribed form (NSCP-2003) Application for Payment. Payment of Federal costshares may be withheld from any producer who fails to file any form or furnish any information required with (h) Face. The whole wound or aggregate of streaks made by chipping, streaking, or pulling the live tree to stimulate the flow of crude gum (oleofurnish any information required with

(i) Cup. A container made of metal, clay, or other material hung on or below the face to accumulate the flow of gum.

(j) Tins. The gutters or aprons, made of sheet metal or other material, used to conduct the gum from a face into a cup.

(k) D. b. h. Diameter breast height; i. e., diameter of tree measured 4½ feet from the ground.

(1) Round tree. Any tree which has not been faced or scarred.

(m) Scarred tree. A tree having an idle face not over 36 inches in vertical measurement from the shoulder of the first streak to the shoulder of the last streak.

(n) Worked-out face. An idle face which is 60 inches or more in vertical measurement between the shoulder of the first streak and the shoulder of the last streak, or a dry face.

(o) Back-face. A face placed on a tree having a previously worked face.

(p) Spiral gutter A curved gutter that follows a spiral path around the tree.

(q) Varn apron. A curved two-picco adjustable apron with tacking flange.

(r) Double-headed nail. A nail approximately one inch long with a flange about five-sixteenths of an inch from the head.

(s) Normal mortality. Two percent (2%) of all faces in the tract or drift.

(t) Virgin streak. The first chipping of the tree following initial installation of the face.

AUTHORITY AND AVAILABILITY OF FUNDS,
APPLICABILITY AND ADMINISTRATION

§ 1106.732 Authority. This program is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended, and the Department of Agriculture Appropriation Act, 1956.

§ 1106.733 Availability of funds. (a) The provisions of this program are necessarily subject to such legislation affecting said program as the Congress of the United States may hereafter enact; the paying of the Federal cost-shares herein provided for is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such Federal cost-shares will necessarily be within the limits finally determined by such appropriation and by the extent of participation in this program.

(b) The funds provided for this program will not be available for the payment of applications filed after December 31, 1957.

§ 1106.734 Applicability. (a) The provisions of this program are not applicable to any turpentining operations within the public domain of the United States, including the lands and timber owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under Government ownership (such lands include, but are not limited to lands owned by the United States which are administered by the

Forest Service or the Soil Conservation Service of the Department of Agriculture, or by the Bureau of Land Management or the Fish and Wildlife Service of Department of the Interior)

(b) This program is applicable to (1) turpentine farms on privately owned lands, (2) lands owned by a State or a political subdivision or agency thereof, or (3) lands owned by corporations which are either partly or wholly owned by the United States provided such lands are temporarily under such government or corporation ownership and are not acquired or reserved for conservation purposes. Only turpentine farms on lands that are administered by the Farmers Home Administration, the Reconstruction Finance Corporation, the Federal Farm Mortgage Corporation, a Production Credit Association, or the U.S. Department of Defense, shall be considered eligible unless the Forest Service finds that land administered by any other agency complied with all of the foregoing provisions for eligibility.

§ 1106.735 Administration. The Forest Service shall have charge of the administration of this program and is hereby authorized to prepare and to issue such bulletins, instructions and forms, and to make such determinations, as may be required to administer this program, pursuant to the provisions of this bulletin, and the field work shall be administered by the Forest Service through the office of the Regional Forester, United States Forest Service, 50 Seventh Street NE., Atlanta 5, Georgia. Information concerning this program may be secured from the Forest Service. Valdosta, Georgia, or from any local Area Forester of the Forest Service.

Done at Washington, D. C., this 12th day of July 1955.

[SEAL] E. L. PETERSON,
Assistant Secretary of Agriculture.

[F. R. Doc. 55-5772, Filed, July 14, 1955; 8:49 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203-BRIDGE REGULATIONS

SMITHS CREEK AND NORTHEAST RIVER, NORTH CABOLINA

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499) paragraph (g) of § 203.245 is hereby amended prescribing regulations for the North Carolina State Highway and Public Works Commission bridges across Smiths Creek in Wilmington, North Carolina, and across Northeast River at Rocky Point, North Carolina, by the addition of subparagraphs (10-b) and (10-d) as follows:

§ 203.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the

Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

(g) Waterways discharging into the Atlantic Ocean between Chesapcake Bay and Charleston. * * *

(10-b) Smiths Creek, N. C., North Carolina State Highway and Public Works Commission bridge in Wilmington. At least 24 hours' advance notice required.

(10-c) [Reserved.]

(10-d) Northeast River, N. C., North Carolina State Highway and Public Works Commission bridge at Rocky Point. At least 24 hours' advance notice required.

[Regs., June 24, 1955, 823.01-ENGWO] (28 Stat. 362; 33 U. S. C. 499)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 55-5748; Filed, July 14, 1955; 8:45 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerco

[Amdt. 59]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.6008 VOR civil airway No. 8 (Long Beach, Calif., to Washington, D. C.) is amended by deleting the words, "Mansfield, Ohio, omnirange station, including a north alternate;" and by substituting the following words in lieu thereof, "Mansfield, Ohio, omnirange station;"

2. Section 600.6021 VOR civil airway No. 21 (Long Beach, Calif., to United States-Canadian Border) is amended by deleting the words, "Morman Mesa omnirange 196° True radials;" and by substituting the following words in lieu thereof: "Morman Mesa omnirange 192° True radials;"

3. Section 600.6025 VOR civil airway No. 25 (Santa Barbara, Calif., to Ellensburg, Wash.) is amended by changing all after The Dalles, Oreg., omnirange station to read: "The Dalles, Oreg., omnirange station, Yakima, Wash., omnirange station, including an east alternate via the intersection of The Dalles omnirange 032° True and the Yakima omnirange 183° True radials; intersection of

the Yakima omnirange 304° True and the Ellensburg omnirange 191° True radials; to the Ellensburg, Wash., omnirange station, excluding the portions of this airway which overlap the Yakima restricted area (R-247)"

4. Section 600.6026 VOR civil airway No. 26 (Cherokee, Wyo., to Cleveland, Ohio) is amended by changing all before the Plerre, S. Dak., omnirange station to read: "That airspace over United States territory from the Cherokee, Wyo., omnirange station via the Casper, Wyo., omnirange station; Rapid City, S. Dak., omnirange station, including a north alternate; Pierre, S. Dak., omnirange station, including a south alternate;"

5. Section 600.6049 is amended to read:

§ 600.6049 VOR civil arrway No. 49 (Dillon, Mont., to Great Falls, Mont.) From the Dillon, Mont., omnirange station via the Butte, Mont., omnirange station; intersection of the Butte omnirange 002° True and the Helena, Mont., omnirange 272° True radials; intersection of the Helena, Mont., omnirange 272° True and the Great Falls omnirange 222° True radials; to the Great Falls, Mont., omnirange station.

6. Section 600.6068 VOR civil airway No. 68 (Albuquerque, N. Mex., to Brownsville, Tex.) is amended by changing all before the Roswell, N. Mex., omnirange station to read: "That airspace over United States territory from the Albuquerque, N. Mex., omnirange station via the intersection of the Albuquerque omnirange 120° True and the Corona omnirange 311° True radials; Corona, N. Mex., omnirange station, including a north alternate from the Albuquerque omnirange station to the Corona omnirange station via the intersection of the Albuquerque omnirange 103° True and the Corona omnirange 328° True radials and also a south alternate from the Albuquerque omnirange station to the Corona omnirange station via the intersection of the Albuquerque omnirange 169° True and the Corona omnirange 272° True radials; Roswell, N. Mex., omnirange station, including a north alternate;"

7. Section 600.6070 VOR civil airway No. 70 (Corpus Christi, Tex., to Baton Rouge, La.) is amended by changing all after the Lafayette, La., omnirange station to read: "Lafayette, La., omnirange station; Baton Rouge, La., omnirange station; to the point of intersection of the Baton Rouge omnirange 092° True and the New Orleans, La., omnirange 001° True radials."

8. Section 600.6100 VOR civil airway No. 100 (San Francisco, Calif., to Fresno,

Calif.) is revoked.

9. Section 600.6114 VOR civil arrway No. 114 (Pueblo, Colo., to New Orleans, La.) is amended by changing all after the Dallas, Tex., omnirange station to read: "Dallas, Tex., omnirange station, including a north alternate via the intersection of the Wichita Falls omnirange 103° True and the Dallas omnirange 324° True radials; Gregg County, Tex., omnirange

station, including a south alternate via the intersection of the Dallas omnirange 135° True and the Gregg County omnirange 278° True radials; via the direct radial to the point of intersection of the Shreveport, La., omnirange 177° .True and the Alexandria omnirange 300° True radials; Alexandria, La., omnirange station, including a north alternate from the Gregg County omnirange station to the Alexandria omnirange station via the Shreveport omnirange station and the intersection of the Shreveport omnirange 177° True and the Alexandria omnirange 300° True radials; Baton Rouge, La., omnirange station; to the New Orleans, La., omnirange station."

- 10. Section 600.6120 is amended to read.
- § 600.6120 VOR civil airway No. 120 (Mullan Pass, Mont., to Miles City, Mont.) From the Mullan Pass, Mont., omnirange station via the Great Falls, Mont., omnirange station; Lewiston, Mont., omnirange station; to the Miles City, Mont., omnirange station.
- 11. Section 600.6190 is added to read: § 600.6190 VOR civil airway No. 190 (Grants, N. Mex., to Gage, Okla.) From the Grants, N. Mex., omnirange station via the intersection of the Grants omnirange 067° True and the Santa Fe omnirange 253° True radials; Santa Fe, N. Mex., omnirange station; Las Vegas,
- N. Mex., omnirange station; Dalhart, Tex., omnirange station; to the Gage, Okla., omnirange station.
 - 12. Section 600.6192 is added to read:
- § 600.6192 VOR civil airway No. 192 (Grants, N. Mex., to Tucumcari, N. Mex.) From the Grants, N. Mex., omnirange station via the intersection of the Grants omnirange 136° True and the Corona omnirange 272° True radials; Corona, N. Mex., omnirange station; to the Tucumcari, N. Mex., omnirange station.
 - 13. Section 600.6196 is added to read:
- § 600.6196 VOR civil airway No. 196 (Rock River Wyo., to Chadron, Nebr.) From the Rock River, Wyo., omnirange station to the Chadron, Nebr., omnirange station.
- 14. Section 600.6198 is added to read: § 600.6198 VOR civil airway No. 198. (Unassigned.)
 - 15. Section 600.6199 is added to read:
- § 600.6199 VOR civil airway No. 199 (San Francisco, Calif., to Fresno, Calif.) From the San Francisco, Calif., omnirange station via the intersection of the San Francisco omnirange 111 True and the Fresno omnirange 287° True radials: to the Fresno, Calif., omnırange station. (Sec. 205, 52 Stat. 984, amended; 49 U.S.C. 425. Interpret or apply sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. July 28, 1955.

[SEAL] F B. LEE, Administrator of Civil Aeronautics.

[F. R. Doc. 55-5749; Filed, July 14, 1955; 8:46 a. m.]

[Amdt. 59]

PART 601-DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area alterations appearing hereinafter have been corodinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.1041 is amended to

- § 601.1041 Control area (Boise, Idaho) Within 5 miles either side of the southwest course of the Boise radio range extending from the radio range station to a point 20 miles southwest including the airspace in the south quadrant of the Boise radio range bounded on the northeast and southeast by the Mountain Home, Idaho, control area extension and on the southwest by a line drawn 135° True from a point at lat. 43°20′20″ long. 116°29′15″ extending to the Mountain Home control area
- 2. Section 601.1042 is amended to
- § 601.1042 Control area extension (Columbus, Ohio) That airspace within a 15-mile radius of the Columbus, Ohio, omnirange station: that airspace southwest of Columbus bounded on the north by Green civil airway No. 4. on the east by Blue civil airway No. 15, on the south by Red civil airway No. 8 and on the west by VOR civil airway No. 47 that airspace southeast of Columbus within a 30-mile radius of Lockbourne Air Force Base extending clockwise from the south boundary of Red civil airway No. 8 to the east boundary of Blue civil airway No. 15.
- 3. Section 601.1090 Control area extension (Columbus, Ohio) is revoked.
 - 4. Section 601.1090 is added to read:
- § 601.1090 Control area extension (Lawrence, Mass.) Within 5 miles either side of a direct line extending from the Lawrence, Mass., nondirectional radiobeacon to the Bedford, Mass., outer marker.
- 5. Section 601.1167 is amended to
- § 601.1167 Control area extension (Ontario, Oreg.) That airspace within an 81/2-mile radius of the Ontario Airport including the airspace southeast of Ontario bounded on the northeast by Green civil airway No. 10, on the south by the Boise, Idaho, control area extension, on the southwest by a line 12 miles southwest of and parallel to Green civilairway No. 10.
- 6. Section 601.1200 is amended to read:

- § 601.1200 Control area extension (Columbia, S. C.) From the Columbia Airport extending 5 miles either side of the center line of the northeast-southwest runway to a point 30 miles southwest of the airport.
- 7. Section 601.1247 Control area extension (Las Vegas, Nev.) is amended by adding the following portion to present control area extension: "and that airspace within 5 miles either side of a line extending from the intersection of the Morman Mesa, Nev., omnirange 192° True radial and the Las Vegas, Nev., omnirange 86° True radial to the intersection of the southeast course of the Las Vegas, Nev., radio range with the north course of the Needles, Calif., radio range."
- 8. Section 601.6025 is amended to read:
- § 601.6025 VOR civil airway No. 25 control areas (Santa Barbara, Calif., to Ellensburg, Wash.) All of VOR civil arway No. 25, including an east alternate
- 9. Section 601.6049 is amended to read:
- § 601.6049 VOR civil airway No. 49 control areas (Dillon, Mont., to Great Falls, Mont.) All of VOR civil airway No. 49.
- 10. Section 601.6100 VOR civil airway No. 100 control areas (San Francisco, Calif., to Fresno, Calif.) is revoked. 11. Section 601.6120 is amended to
- read:
- § 601.6120 VOR civil airway No. 120 control areas (Mullen Pass, Mont., to Miles City, Mont.) All of VOR civil airway No. 120.
- 12. Section 601.6190 is added to read:
- § 601.6190 VOR civil airway No. 190 control areas (Grants, N. Mex., to Gage, Okla.) All of VOR civil airway No. 190.
- 13. Section 601.6192 is added to read:
- § 601.6192 VOR civil airway No. 192 control areas (Grant, N. Mex., to Tu-cumcari, N. Mex.) All of VOR civil airway No. 192.
 - 14. Section 601.6196 is added to read:
- § 601.6196 VOR civil airway No. 196 control areas (Rock River, Wyo., to Chadron, Nebr.) All of VOR civil airway No. 196.
 - 15. Section 601.6198 is added to read:
- § 601.6198 VOR civil airway No. 198 control areas. (Unassigned.)
 - 16. Section 601.6199 is added to read:
- § 601.6199 VOR civil airway No. 199 control areas (San Francisco, Calif., to Fresno, Calif.) All of VOR civil airway No. 199.
- (Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1107, as amended; 49 U.S. C. 551)

This amendment shall become effective 0001 e. s. t., July 28, 1955.

F B. LEE. Administrator of Civil Aeronautics,

IF. R. Doc. 55-5750; Filed, July 14, 1955; 8:46 a. m.]

[Amdt 151]

Part 609-Standard Instrument Approach Procedures

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required

Part 609 is amended as follows: Nors: Where the general classification (LFR VAR ADF, LLS GOA or VOR) location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure is to be substituted for the existing one as of the effective date given to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended

The low frequency range procedures prescribed in § 609 6 are amended to read in part;

-

Bearings, headings, and courses are magnetle Distances are in statute miles unless otherwise indicated. Blowations and altitudes are in feet, MSL. Cellings are in feet above alriport elevation.

If an LFR instrument approach is conducted at the below named alriport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure are the Administrator for Civil Acronauties for such altiport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with these established for en route operation in the particular are forth below.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural R e s e a r c h
Service, Department of Agriculture

Subchapter D—Exportation and Importation of Animals and Animal Products

PART 97—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

OVERTIME, NIGHT AND HOLIDAY INSPECTION AND QUARANTINE ACTIVITIES AT BORDER, COASTAL AND AIR PORTS

Pursuant to the authority conferred by the act of August 28, 1950 (64 Stat. 561, 5 U. S. C. 576) § 97.1, Chapter I, Subchapter D, Title 9, of the Code of Federal Regulations is hereby amended to read as follows:

§ 97.1 Overtime work at border ports, seaports, and airports. Any person, firm, or corporation having ownership, custody or control of animals, animal byproducts, or other commodities subject to inspection, certification, or quarantine under this subchapter and Subchapter F of this chapter, and who requires the services of an employee of the Animal Inspection and Quarantine Branch on a holiday, or at any other time outside the regular tour of duty of such employee, shall sufficiently in advance of the period of overtime request the Branch inspector in charge to furnish inspection, certification or quarantine service during such overtime period and shall pay the Administrator of the Agricultural Research Service at the rate of \$5.00 per man hour per employee as follows: A minimum charge of two hours shall be made for any unscheduled overtime duty performed by an employee on a day when no work was scheduled for him or which is performed by an employee on his regular work day beginning either at least one hour before his scheduled tour of duty or at least one hour after he has completed his scheduled tour of duty, and has left his place of employment. In addition, each such period of unscheduled overtime work which requires an employee to perform additional travel for which he would otherwise not be compensated. and each period of holiday duty, may include a commuted travel time period, not in excess of three hours. amount of this period shall be prescribed in administrative instructions to be issued by the Chief of the Animal Inspection and Quarantine Branch for the ports, stations, and areas in which the employees are located, and shall be established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from such overtime duty if such travel is performed solely on account of such overtime duty. It will be administratively determined from time to time which days constitute holidays.

Purpose. The purpose of this amendment is to establish a uniform hourly rate and prescribe conditions of payment for all overtime services furnished in accordance with the act of August 28, 1950. It is to the benefit of those who require such overtime services, as well as the public generally, that this amendment be made effective at the earliest practicable date. Accordingly, pursuant to the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238) it is found upon good cause that notice and public procedure on this amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making this amendment effective less than 30 days after publication.

Effective Date. The foregoing amendment shall be effective upon publication in the Federal Register.

(64 Stat. 561; 5 U. S. C. 576)

Done at Washington, D. C., this 11th day of July 1955.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6215]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

JONATHAN LOGAN, INC., AND DAVID SCHWARTZ

Subpart-Discriminating in price under section 2, Clayton Act, as amended—Payment for Services or Facilities for Processing or Sale Under 2 § 13.825 Allowances for services or facilities. In or in connection with the sale of dresses in commerce, as "commerce" is defined in the Clayton Act, as amended, and on the part of respondent Jonathan Logan, its officers, etc., and respondent David Schwartz, individually and as its president, making or contracting to make, to or for the benefit of any customer, any payment of anything of value as compensation or in consideration for any services or facilities furnished by or through such customer in connection with his processing, handling, sale, or offering for sale of products sold to him by respondents, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, Jonathan Logan, Inc., et al., Jercey City, N. J., Docket 6215, May 29, 1955]

In the Matter of Jonathan Logan, Inc., a Corporation, and David Schwartz, Individually and as President of Jonathan Logan, Inc.

This proceeding was heard by J. Earl Cox, hearing examiner, upon the complaint of the Commission, which charged respondents with having violated subsection (d) of section 2 of the Clayton Act, as amended by the Robinson-Patman Act, by making or contracting to make payments to some customers for services or facilities, particularly advertising services, furnished by or through such customers in connection with the handling or reselling of respondents' products, without offering such payments or contracts to all competing customers on a proportionally equal basis; and upon a Stipulation for Consent Order, which was entered into by respondents with counsel supporting the complaint, following the filing with the Commission by respondents of answer to such complaint, and which was approved by the Director and Assistant Director of the Bureau of Litigation and transmitted to the hearing examiner.

Said stipulation provided, among other things, that respondents admitted all the jurisdictional allegations set forth in the complaint and that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance with such allegations; that the stipulation, together with the complaint, should constitute the entire record in the matter; that the complaint might be used in construing the order agreed upon. which might be altered, modified, or set aside in the manner provided by the statute for orders of the Commission; that the signing of the stipulation was for settlement purposes only and did not constitute an admission by respondents that they had violated the law as alleged in the complaint; and that the order provided for in the stipulation and included in the decision should have the same force and effect as if made after a full hearing, presentation of evidence and findings and conclusions thereon.

It further appeared that all parties requested that the answer theretofore filed be withdrawn, and expressly waived the filing of answer, hearing before a hearing examiner or the Commission, the making of findings of fact or conclusions of law by the hearing examiner or the Commission, the filing of exceptions, oral argument before the Commission, and all further and other procedure before the hearing examiner and the Commission to which respondents might be entitled under the Clayton Act as amended or the rules of practice of the Commission, including any and all right, power, or privilege to challenge or contest the validity of the order entered in accordance with the stipulation.

Thereafter said hearing examiner made his initial decision in which he set forth the aforesaid matters; found that the order agreed upon disposed of all the issues raised in the complaint without differing materially from the order contained in the notice accompanying the complaint; accordingly accepted the Stipulation for Consent Order; granted

the request of all parties for the withdrawal of respondents' answer theretofore filed; found the proceeding to be in the public interest; and issued his order, including order to cease and desist and order withdrawing respondents' answer from the record of the proceeding.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance" dated May 27, 1955, became, on May 29, 1955, pursuant to Rule XXII of the Commission's rules of practice, the decision of the Commission.

Said order is as follows:

It is ordered, That Respondents, Jonathan Logan, Inc., a corporation, its officers, employees, agents and representatives, and David Schwartz, individually and as President of Jonathan Logan, Inc., directly or through any corporate or other device, in or in connection with the sale of dresses in commerce, as "commerce" is defined in the aforesaid Clayton Act, as amended, do forthwith cease and desist from making or contracting to make, to or for the benefit of any customer, any payment of anything of value as compensation or in consideration for any services or facilities furnished by or through such customer in connection with his processing, handling, sale or offering for sale of products sold to him by Respondents, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products.

It is further ordered, That Respondents' answer to the complaint herein, filed with the Commission on October 18, 1954, be, and the same hereby is, withdrawn from the record of this proceeding.

By said "Decision of the Commission" etc., report of compliance was required as follows:

It is ordered, That respondents Jonathan Logan, Inc., a corporation, and David Schwartz, individually and as President of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 27, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH, Secretary.

[Docket 6293]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

GRAND MANUFACTURING CO.

Subpart—Misbranding or mislabeling: § 13.1225 History; § 13.1255 Manufacture or preparation, § 13.1330 Specifications or standards conformance.

Subpart-Misrepresenting oneself and goods—Business Status, Advantages or Connections: § 13.1400 Dealer as manufacturer Subpart—Using misleading name-Vendor: § 13.2445 Producer or laboratory status of dealer or seller In. the offering for sale, sale, or distribution of wearing apparel, or of any other merchandise in commerce: (1) Representing, directly or by implication, by marking, branding, labeling, tagging, or in any other manner, that such merchandise was manufactured for the Armed Forces of the United States or in accordance with specifications of said Armed Forces; and (2) using the words "manufacturing" and "manufacturers of" or any other word or words of similar import or meaning as a part of a trade name, or representing through the use of the words "manufacturing" or "manufacturers of" or any other word or words of similar import or meaning on stationery, invoices, price lists, or in any other manner that respondent manufactures the merchandise sold by him; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Isaac Reiss d. b. a. Grand Manufacturing Company, New York, N. Y., Docket 6293, June 2, 1955]

In the Matter of Isaac Reiss, Doing Business as Grand Manufacturing Company

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission which charged respondent with the use of unfair methods of competition and unfair acts and practices in commerce, in violation of the provisions of the Federal Trade Commission Act, in connection with the offer and sale of respondent's clothing, and upon a stipulation for consent order. which was entered into by respondent with counsel supporting the complaint. disposed of all the issues in the proceeding, and was submitted to said hearing examiner, theretofore duly designated by the Commission, for his consideration in accordance with Rule V of the Commission's rules of practice.

Respondent, pursuant to the aforesaid stipulation, admitted all the jurisdictional allegations of the complaint and agreed that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance with such allegations; and said stipulation further provided that all parties expressly waived a hearing before the hearing examiner or the Commission, and all further and other procedure to which the respondent might be entitled under the Federal Trade Commission Act or the rules of practice of the Commission.

Respondent also agreed that the order to cease and desist issued in accordance with said stipulation should have the same force and effect as if made after a full hearing, and specifically waived any and all right, power, or privilege to challenge or contest the validity of said order, and it was further stipulated and agreed that the complaint in the matter

might be used in construing the terms of the order provided for in said stipulation, and that the signing of said stipulation was for settlement purposes only and did not constitute an admission by respondent that he had violated the law as alleged in the complaint.

Thereafter the proceeding having come on for final consideration by said hearing examiner on the complaint and the aforesaid stipulation for consent order, said hearing examiner made his mitial decision in which he set forth the aforesaid matters; his conclusion that said stipulation provided for an appropriate disposition of the proceeding and his acceptance of said stipulation which he ordered filed as a part of the record: and his findings, for jurisdictional purposes, with respect to said respondent, and the jurisdiction of the Commission over the subject matter of the proceeding and over said respondent; and including his findings that the complaint stated a cause of action against said respondent under the Federal Trade Commission Act and that the proceeding was in the interest of the public; and in which he set forth order to cease and desist.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order To File Report of Compliance" dated June 2, 1955, became, on said date, pursuant to Rule XXII of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That respondent Isaac Reiss, an individual trading as Grand Manufacturing Company, or under any other trade name, and respondent's agents, representatives and employees, directly or through any corporate or other device, in the offering for sale, sale or distribution of wearing apparel, or of any other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

- 1. Representing, directly or by implication, by marking, branding, labeling, tagging, or in any other manner, that such merchandise was manufactured for the Armed Forces of the United States or in accordance with specifications of said Armed Forces.
- 2. Using the words "manufacturing" and "manufacturers of" or any other word or words of similar import or meaning as a part of a trade name, or representing through the use of the words "manufacturing" or "manufacturers of" or any other word or words of similar import or meaning on stationery, invoices, price lists or in any other manner that he manufactures the merchandise sold by him.

By said "Decision of the Commission," etc., report of compliance was required as follows:

It is ordered, That the respondent herein shall within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: June 2, 1955. By the Commission.

[F. R. Doc. 55-5766; Filed, July 14, 1955; 8:48 a.m.]

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 240—GENERAL RULES AND REGULA-TIONS UNDER THE SECURITIES EXCHANGE ACT OF 1934

MANIPULATIVE AND DECEPTIVE DEVICES AND CONTRIVANCES

The Commission today announced the adoption of §§ 240.10b–6, 240.10b–7 and 240.10b–8 (Rules X-10B–6, X-10B–7 and X-10B–8) and the rescission of Regulation X-9A6 (§ 240.9a6) under the Securities Exchange Act of 1934. Generally speaking, Rules X-10B–6, 7 and 8 are a formulation of principles heretofore applied in determining whether activities by persons participating in a distribution of securities or in stabilizing in connection therewith, are manipulative.

The proposal to adopt §§ 240.10b-6, 240.10b-7 and 240.10b-8, and to rescind § 240.9a6 (Regulation X-9A6) was first published on May 18, 1954 in Securities Exchange Act Release No. 5040, and these proposals were under consideration for many months prior thereto. The Commission received numerous written comments and suggestions on the proposals published on May 18, 1954, and after appropriate notice a public hearing was held on July 8, 1954 at which interested persons were afforded an opportunity to express their views orally. Certain of those who attended the hearings and other persons who desired to participate thereafter con-ferred with the staff and submitted additional comments. The revised proposals were again published for comment on April 19, 1955 in Securities Exchange Act release No. 5159. Many comments and suggestions have been made to the staff and the Commission with respect to the revised proposals. The Commission has considered all the comments and suggestions submitted in connection with the original and revised proposals and has adopted the rules in the form set forth below.

Section 240.10b-6 makes it unlawful for the issuer, any other person on whose behalf a distribution is being made, the underwriter, a prospective underwriter, a broker, a dealer, or any other person who has agreed to participate or is participating in such distribution, to bid for or purchase any security which is the subject of such distribution, any security of the same class and series, or any right to purchase any such security (or to attempt to induce any person to purchase any such security or right) until after he has completed his participation in the

distribution. The rule provides a number of exceptions from these prohibitions to cover transactions not considered to be manipulative or deceptive. It also contains definitions of the terms "underwriter" and "prospective underwriter" and defines the circumstances under which a person shall be deemed to have completed his participation in the distribution. Exempted securities, as defined in section 3 (a) (12) of the act, certain securities of the International Bank for Reconstruction and Development and certain specified investment company securities are exempted from the provisions of the rule.

Section 240.10b-7 makes it unlawful for any person who stabilizes the price of a security to facilitate a distribution to conduct his stabilizing activities in violation of the provisions of the rule. It prohibits certain specified activities, including (1) bids or purchases not necessary for the purpose of preventing or retarding a decline in the open market price of the security, (2) stabilizing at a price resulting from unlawful activity and (3) stabilizing to facilitate any "of-fering at the market" as defined in the rule. In view of this last prohibition, Regulation X-9A6 which dealt with stabilizing to facilitate an offering "at the market" of securities registered on a national securities exchange, has been rescinded.

Section 240.10b-7 also sets out the standards for determining the price levels at which stabilizing may be intiated and conducted, and the limited circumstances under which a stabilizing bid or purchase price may be raised. It also contains provisions requiring certain disclosures with respect to stabilizing activity and provides for certain reports by persons engaged in such activity.

Section 240.10b-8 regulates the activities, during the rights period, of certain persons participating in a distribution of securities being offered through rights issued on a pro-rata basis to security holders. It deals particularly with offerings of the types generally known as Shields Plan and Columbia Gas Plan offerings, although the rule is applicable also to other types of rights offerings under the circumstances specified in the rule.

Among other things, § 240.10b-8 prohibits persons subject to it from offering or selling the securities being distributed, or securities of the same class and series, at a price in excess of the last price set by the managers of the distribution, or by a formula prescribed in an agreement with such persons, unless the transaction fits into one of six categories of transactions exempt from this requirement. It also provides that certain other conditions shall apply when (1) the price of the security is being stabilized to facilitate the distribution or (2) the "syndicate or group," as defined in the rule, has purchased any rights not necessary to acquire securities previously sold and has not sold the securities which can be acquired through such rights, unless the rights are purchased in an exempt transaction. Generally speaking, this condition (2) will be applicable where the syndicate or group has a net long position because of the purchase of rights in non-exempt transactions. These conditions include the price level at which rights may be purchased, and the curcumstances under which the purchase price for rights may be increased. It should be noted that when these condi-tions are applicable, the purchase price for rights may be increased only if the increased price meets the requirements which would be applicable if it were the initial bid or purchase price and (i) no rights have been purchased as principal by the syndicate or group for a full business day, except in an exempt transaction, or (ii) the independent bid price in the principal market for such rights in the United States has exceeded such price for a full business day.

The Commission believes that these rules, which represent a formulation of principles which have been generally followed, will not impede the orderly distribution of securities and will afford investors protection against manipulative and deceptive devices in situations in which the rules are applicable. Each of the rules includes a provision under which the Commission may, upon written request or on its own motion, exempt specific transactions from any of such rules, either unconditionally or upon specified terms and conditions. provision is inserted to provide for unusual situations which may fall within the literal language of a rule but can be demonstrated not to be comprehended within its purpose. It is expected that this exemption will be available only on rare occasions where acceptable methods of distribution, conforming with the rules, cannot be utilized. Requests for this exemption must be made in writing and should contain a full statement of the relevant facts. It is not contemplated that formal administrative proceedings will be held in connection with such requests.

The rules adopted do not purport to cover every possible type of manipulative or deceptive activity. The fact that a particular activity is not specifically dealt with or prohibited in such rules does not necessarily mean that it is not unlawful under the act or the Commission's other rules.

Statutory basis. The Securities and Exchange Commission, acting pursuant to the provisions of the Securities Exchange Act of 1934, particularly sections 3 (b) 9 (a) (6) 10 (b) and 23 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors, and necessary to carry out its functions under the act, hereby rescinds § 240.9a–6 and adopts §§ 240.10b–6, 240.10b–7, and 240.10b–8 as stated below.

§ 240.10b-6 Prohibitions against trading by persons interested in a distribution. (a) It shall constitute a "manipulative or deceptive device or contrivance" as used in section 10 (b) of the act for any person,

 Who is an underwriter or prospective underwriter in a particular distribution of securities, or

(2) Who is the issuer or other person on whose behalf such a distribution is being made, or

(3) Who is a broker, dealer, or other person who has agreed to participate or is participating in such a distribution,

directly or indirectly, by the use of any means or instrumentality of interstate commerce, or of the mails, or of any facility of any national securities exchange, either alone or with one or more other persons, to bid for or purchase for any account in which he has a beneficial interest, any security which is the subject of such distribution, or any security of the same class and series, or any right to purchase any such security or to attempt to induce any person to purchase any such security or right until after he has completed his participation in such distribution: Provided, however That this section shall not prohibit (i) transactions in connection with the distribution effected otherwise than on a securities exchange with the issuer or other person or persons on whose behalf such distribution is being made or among underwriters, prospective underwriters or other persons who have agreed to participate or are participating in such dis-(ii) unsolicited privately tribution; negotiated purchases, each involving a substantial amount of such security, effected neither on a securities exchange nor from or through a broker or dealer. or (iii) purchases by an issuer effected more than forty days after the commencement of the distribution for the purpose of satisfying a sinking fund or similar obligation to which it is subject; or (iv) odd-lot transactions (and the off-setting round-lot transactions heremafter referred to) by a person registered as an odd-lot dealer in such security on a national securities exchange who offsets such odd-lot transactions in such security by round-lot transactions as promptly as possible; or (v) brokerage transactions not involving solicitation of the customer's order; or (vi) offers to sell or the solicitation of offers to buy the securities being distributed (including securities or rights acquired in stabilizing) or securities or rights offered as principal by the person making such offer to sell or solicitation; or (vii) the exercise of any right or conversion privilege to acquire any security or (viii) stabilizing transactions not in violation of § 240.10b-7 or (ix) bids for or purchases of rights not in violation of § 240.10b-8; or (x) transactions effected on a national securities exchange in accordance with the provisions of a plan filed by such exchange under § 240.10b-2 (d) and declared effective by the Commission; or (xi) purchases or bids by an underwriter, prospective underwriter or dealer otherwise than on a securities exchange, 10 or more business days prior to the proposed commencement of such distribution (or 5 or more business days in the case of unsolicited purchases) if none of such purchases or bids are for the purpose of creating actual or apparent active trading in or raising the price of such security. In the case of securities offered pursuant to an effective registration statement under the Securities Act of 1933 the distribution shall not be deemed to commence for purposes of this subdivision prior to the effective date of the registration statement.

(b) The distribution of a security (1) which is immediately exchangeable for or convertible into another security, or (2) which entitles the holder thereof immediately to acquire another security, shall be deemed to include a distribution of such other security within the meaning of this section.

(c) The following shall be applicable for the purposes of this section.

(1) The term "underwriter" means a person who has agreed with an issuer or other person on whose behalf a distribution is to be made (i) to purchase securities for distribution or (ii) to distribute securities for or on behalf of such issuer or other person or (iii) to manage or supervise a distribution of securities for or on behalf of such issuer or other person.

(2) The term "prospective underwriter" means a person (i) who has agreed to submit or has submitted a bid to become an underwriter of securities as to which the issuer, or other person on whose behalf the distribution is to be made, has assued a public invitation for bids, or (ii) who has reached an understanding, with the issuer or other person on whose behalf a distribution is to be made, that he will become an underwriter, whether or not the terms and conditions of the underwriting have been

agreed upon.

- (3) A person shall be deemed to have completed his participation in a particular distribution as follows: (i) The issuer or other person on whose behalf such distribution is being made, when such distribution is completed; (ii) an underwriter, when he has distributed his participation, including all other securities of the same class acquired in connection with the distribution, and any stabilization arrangements and trading restrictions with respect to such distribution to which he is a party have been terminated; (iii) any other person, when he has distributed his participation. A person, including an underwriter or dealer, shall be deemed for purposes of this subparagraph to have distributed securities acquired by him for investment.
- (d) The provisions of this section shall not apply to any of the following securities: (1) "Exempted securities" as defined in section 3 (a) (12) of the act. including securities issued, or guaranteed both as to principal and interest, by the International Bank for Reconstruction and Development; or (2) face-amount certificates issued by a face-amount certificate company, or redeemable securities issued by an open-end management company or a unit investment trust. Any terms used in subparagraph (2) of this paragraph which are defined in the Investment Company Act of 1940 shall have the meanings specified in such act.
- (e) This section shall not prohibit any transaction or transactions if the Commission, upon written request or upon its own motion, exempts such transaction or transactions, either unconditionally or on specified terms and conditions, as not constituting a manipulative or deceptive device or contrivance comprehended within the purpose of this section.

§ 240.10b-7 Stabilizing to facilitate a distribution—(a) Scope of section. The provisions of this section shall apply to any person who, either alone or with one or more other persons, directly or indirectly, stabilizes the price of a security to facilitate an offering of any security It shall constitute a "manipulative or deceptive device or contrivance" as used in section 10 (b) of the act, for any such person, directly or indirectly, by the use of any means or instrumentality of interstate commerce, or of the mails, or of any facility of any national securities exchange, to effect, either alone or with one or more other; persons, any transaction or series of transactions prohibited by this section.

(b) Definitions. Unless the context clearly indicates otherwise, for the purposes of this section the following terms shall have the meaning indicated:

(1) The term "offering at the market" shall mean an offering in which it is contemplated any offering price set in any calendar day will be increased more than once during such day.

(2) The term "transaction"

mean a bid or a purchase.

(3) The terms "stabilize", "stabilizes", "stabilizing" or "stabilized" shall mean the placing of any bid, or the effecting of any purchase, for the purpose of pegging, fixing or stabilizing the price of any security Provided, however, That a bid shall not constitute a stabilizing bid unless or until it is shown in the market.

(c) Transactions must be necessary. No stabilizing bid or purchase shall be made except for the purpose of preventing or retarding a decline in the open market price of a security.

(d) Priority must be granted. Any person placing or transmitting a bid which he knows is for the purpose of stabilizing the price of any security shall disclose the purpose of such bid to the person with whom it is placed or to whom it is transmitted. Any person placing a stabilizing bid or effecting a stabilizing purchase on a securities exchange shall grant priority to any independent bid at the same price irrespective of the size of such independent bid or the time when it is entered. Any person placing a stabilizing bid or effecting a stablizing purchase otherwise than on a securities exchange shall grant priority to any independent bid at the same price placed with or trans-mitted to him irrespective of the size of such independent bid or the time when it is entered.

(e) Control of stabilizing. No sole distributor or syndicate or group stabllizing the price of a security nor any member or members of such syndicate or group shall maintain more than one stabilizing bid in any one market at the price at the same time: Provided, however That more than one such bid at the same price may be maintained otherwise than on a securities exchange by or for the account of such distributor, syndicate or group.

(f) Stabilizing at prices resulting from unlawful activity. No stabilizing shall be initiated at a price which the stabilizer knows or has reason to know is the result of activity which is fraudulent, manipulative, or deceptive under the act or any rule or regulation thereunder.

(g) Stabilizing prohibited in offerings at the market. No person shall effect any stabilizing transaction to facilitate any offering at the market.

(h) Stabilizing securities traded in more than one market. If a security is traded in more than one market, stabilizing shall not be initiated at any price which would be unlawful in the market which is the principal market for such security in the United States open for trading at the time when such stabilizing is initiated: Provided, however That if the principal market for such security in the United States is a securities exchange, stabilizing may be initiated in any market after the close of such exchange at the price at which stabilizing could have been initiated on such exchange at the close thereof unless the person stabilizing knows or has reason to know that other persons have offered or sold such security at a lower price after such close, except that special prices available to any group or class of persons (including employees or holders of warrants or rights) shall not limit the stabilizing price.

(i) Entering stabilizing bid on exchange prior to opening. No person shall place a stabilizing bid on a securities exchange prior to the time the opening quotations for the security on such exchange are available, unless he has been and is lawfully stabilizing such security at such price: Provided, however That a stabilizing bid may be made immediately prior to the opening of a securities exchange at a price not in excess of the price at which stabilizing could have been initiated on such exchange at the previous close thereof, unless the person stabilizing knows or has reason to know that other persons have offered or sold such security at a lower price after such close, except that special prices available to any group or class of persons (including employees or holders of warrants or rights) shall not limit the stabilizing price.

(j) Stabilizing levels. (1) Except as provided in subparagraphs (2) (3) and (4) of this paragraph, no person shall (i) begin to stabilize a security at a price higher than the highest current independent bid price for such security or (ii) raise the price at which he is stabilizing. If no bona fide market for the security being distributed exists at the time stabilizing is initiated, stabilizing may be initiated at a price not in excess of the public offering price.

bilizing is initiated on such exchange the initial stabilizing bid or purchase may be made at a price not in excess of the last independent sale price on such exchange if (i) the security has been traded on such exchange on the day when stabilizing is begun, on either of

(2) If the principal market for a se-

curity is a securities exchange and sta-

the two preceding calendar days, or on the last preceding business day, and (ii) the current asked price is equal to or above the last independent sale price. If both conditions set forth in subdivisions (i) and (ii) of this subparagraph are not met, no person shall begin to stabilize the security at a price in excess of the highest current independent bid price for such security *Provided, however That if a stabilizing bid has been entered at such independent bid price and the first sale thereafter on the exchange is an independent sale at a higher price, the security may be stabilized at a price not in excess of such independent sale price.

(3) If a stabilizing bid or purchase is made before the initial public offering price of the security to be distributed is determined, and such offering price is higher than such stabilizing bid or purchase price, then stabilizing may be resumed after determination of such public offering price at the price at which it could then be initiated: Provided, however, That special prices available to any group or class of persons (including employees or holders of warrants or rights) shall not constitute the initial public offering price for purposes of this subparagraph.

(4) A stabilizing bid lawful when made may be continuously maintained or reduced irrespective of changes in the independent bid, asked or sale price of such security Provided, however, That no stabilizing shall be done at a price higher than the price at which stabilizing is being done in the principal market for such security. Except as provided in subparagraph (3) of this paragraph, if stabilizing is discontinued for less than three business days it shall not be resumed in connection with the same distribution except at the lower of the two following prices: (i) The last lawful stabilizing price, or (ii) the price at which stabilizing could then be initiated. If no stabilizing purchases have been effected for three consecutive business days then stabilizing may be continued or resumed at the price at which it could then be initiated.

(5) No person shall stabilize a security at a price above the price at which such security is currently being distributed: *Provided, however*, That special prices available to any group or class of persons (including employees or holders of warrants or rights) shall not limit the stabilizing price.

(6) If a security goes ex-dividend, ex-rights, or ex-distribution, the price at which such security is being stabilized shall be reduced by an amount equal to the value of the dividend, right, or distribution, computed to the nearest trading differential: Provided, however, That if the dividend, right or distribution has a value of not more than 50 percent of the minimum price differential, the stabilizing price need not be reduced.

(7) When two or more securities are being offered as a unit, the component securities shall not be stabilized at prices the sum of which exceeds the offering price of the unit: Provided, however, The special prices available to any group or class of persons (including employees or holders of warrants or rights) shall not limit the stabilizing price.

(8) If a security is being called or redeemed it shall be unlawful to stabilize such security at a price above such call or redemption price plus accruals, if any Provided, however, That if such security is immediately convertible into

or exchangeable for another security or securities, and if the amount of such other security or securities (into which it is convertible or for which it is exchangeable) multiplied by their highest lawful stabilizing price exceeds the call or redemption price plus accruals, then the security may be stabilized at a price not in excess of such price, to the nearest trading differential.

(k) Disclosure of stabilizing. Any person subject to this section who sells to. or purchases for the account of, any person, any security or any right or warrant to subscribe to any such security, where the price of such security, right or warrant has been stabilized, shall give or send to such person, at or before the completion of each transaction entered into while the distribution is in progress, written notice that stabilizing purchases may be or have been effected. If, however, at or before the completion of the transaction, the purchaser receives a prospectus, offering circular, con-firmation or other writing containing a statement similar to that comprising the legend provided for in Rule 426 under the Securities Act of 1933, then no other written notice with respect to stabilizing need be given to such purchaser.

(1) Reporting requirements. A person subject to this section shall file with the Commission the reports and notices required to be filed by § 240.17a-2 even though he is not subject to that section as a broker, dealer, or member of a national securities exchange.

(m) Limitation of liability. Whenever any act done or omitted by any person subject to this section would involve a violation of such rule only if some other person had previously done or omitted to do some other act, the act or omission of such first-mentioned person shall not involve a violation unless such first-mentioned person knew or had reason to know that such other person had previously done or omitted to do such other act.

(n) Exempted securities. The provision of this section shall not apply to "exempted securities" as defined in section 3 (a) (12) of the act, including securities issued, or guaranteed both as to principal and interest, by the International Bank for Reconstruction and Development.

(o) Exempted transactions. This section shall not prohibit any transaction or transactions if the Commission, upon written request or upon its own motion, exempts such transaction or transactions, either unconditionally or on specified terms and conditions, as not constituting a manipulative or deceptive device or contrivance comprehended within the purpose of this section.

§ 240.10b-8 Distributions through rights—(a) Scope of section. It shall constitute a "manipulative or deceptive device or contrivance" as used in section 10 (b) of the act for any person participating in a distribution of securities being offered through rights issued on a pro-rata basis to security holders, directly or indirectly, by the use of any means or instrumentality of interstate commerce, or of the mails, or of any facility of any national securities ex-

change, to do any act prohibited by this section prior to the expiration of the rights: *Provided, however* That a person shall not be subject to this section merely because he receives compensation from the issuer of the rights for obtaining exercises of rights by security holders to whom they were originally issued.

(b) Except as provided in paragraph (c) of this section no person subject to this section shall offer or sell the securities being distributed, or securities of the same class and series, at a price in excess of the last price set by the person or persons managing the distribution or by a formula prescribed in an agreement with such person or persons. Such price may be set from time to time, but an offering price set in any calendar day may not be increased more than once during such day. If the principal market for such security is a securities exchange, such price shall not, at the time it is so set, exceed the price at which such security last sold on such exchange (plus an amount equal to an exchange commission) or the current asked price on such exchange (plus such commission) whichever is higher. If the principal market for such security is not a securities exchange, such sale price shall not, at the time it is so set, exceed the highest price at which a dealer not participating in the distribution is then offering the security to other dealers (plus an amount equal to a dealer's concession) The amount of any accrued dividends or interest may be added to such prices.

(c) The provisions of paragraph (b) of this section shall not apply to (1) privately negotiated transactions effected otherwise than on a securities exchange, among persons participating in the distribution; or (2) odd-lot transactions (and the off-setting round-lot transactions hereinafter referred to) by a person registered as an odd-lot dealer in such security on a national securities exchange who off-sets such odd-lot transactions in such security by roundlot transactions as promptly as possible: or (3) brokerage transactions not involving solicitation of the customer's order or (4) offers and sales at the subscription price to holders of rights; or (5) offers and sales to members of any group or class entitled to a special price: or (6) offers and sales of securities owned beneficially on the record date for the rights or acquired through the exercise of rights issued in respect of securities so owned.

(d) The conditions of subparagraphs (1) through (7) of this paragraph shall apply to all bids for and purchases of rights on behalf of a sole distributor, or a syndicate or group participating in the distribution, or any member or members of such a syndicate or group, during any period when the price of the security is being stabilized to facilitate the distribution, or such sole distributor, or such syndicate or group, or any member or members thereof, having purchased, as principal, any right not necessary to acquire securities previously sold by such person or such syndicate or group, in connection with the distribution, has not sold the securities which have been or can be acquired through such rights: Provided, however, That the conditions of subparagraphs (1) through (7) of this paragraph shall not become applicable because of the purchase of rights in any transaction described in subparagraph (8) of this paragraph. As used herein the term "syndicate or group" means (i) all persons who have agreed to purchase from the issuer of rights any of the securities offered through but not purchased upon the exercise of the rights; (ii) all "soliciting dealers" as defined in subparagraph (8) (viii) of this paragraph, including a "dealer manager" as therein defined, and (iii) all persons who have agreed with the issuer of rights, or with each other, that they will engage in the purchase of rights and the sale of the securities which may be acquired through the exercise of rights.

(1) Not more than one bid to purchase rights shall be maintained in any one market at the same price at the same time: *Provided, however* That more than one bid at the same price may be maintained otherwise than on a securities exchange by or for the account of the sole distributor or for the account of the syndicate or group.

(2) No bid for or purchase of rights shall be made until an independent market for such rights has been established: Provided, however That if (i) trading has not begun on the business day on which trading in such rights could lawfully have begun, and (ii) the theoretical value of such right can be ascertained by a generally accepted mathematical formula, then such right may be purchased thereafter at a price not in excess

of such theoretical value.

(3) The initial bid for or purchase of such rights under the conditions of this paragraph shall not be made at a price higher than the highest current independent bid price in the principal market for such rights in the United States open for trading at the time when such bid or purchase is made: Provided, however That if the principal market for such rights is a securities exchange in the United States open for trading at such time, such mitial bid or purchase may be made in any market at the last independent sale price on such exchange if (i) such right has been traded on such exchange on such day or on the preceding business day and (ii) the current asked price on such exchange is equal to or above such sale price: And provided, further That if the initial bid or purchase is made after the close of such exchange such mitial bid or purchase may be made at the price at which such initial bid or purchase could have been made on such exchange at the close thereof unless the bidder or purchaser knows, or has reason to know, that other persons have offered or sold such right at a lower price after such close.

(4) Subject to the limitations in subparagraph (7) of this paragraph, a bid which is lawful when initiated may be continuously maintained or reduced irrespective of changes in the independent bid, asked or sale price of such right. Except as provided in subparagraph (5) of this paragraph, if the bidding for and purchasing of rights is discontinued for any reason, bidding for or purchasing of rights shall not be resumed except at a price not exceeding the lower of the two following prices: (i) The last price at

which a lawful bid or purchase was made or (ii) the price which would be applicable if it were the initial bid or purchase.

(5) The price at which a bid for or purchase of rights is made may be increased only if (i) no rights have been purchased, as principal, for a full business day, by the sole distributor, or any syndicate or group, or any member thereof, except in a transaction described in subparagraph (8) of this paragraph. or (ii) the independent bid price in the principal market for such rights in the United States has exceeded such price for a full business day Provided, how-ever That the increased bid or purchase price in any such case shall meet the requirements which would be applicable if it were the mitial bid or purchase. As used herein the term "full business day" shall mean a period beginning at any time on any business day and extending to the same time on the next succeeding business day.

(6) In the event that the conditions of this paragraph have ceased to be applicable, and then later become applicable again, the first bid for or purchase of rights after such conditions have again become applicable shall be treated as the initial bid for or purchase of rights under the conditions of this paragraph for purposes of subparagraphs (3) (4) and (5) of this paragraph.

(7) Purchases of rights shall be limited to those necessary to acquire the securities which the sole distributor, or the members of the syndicate or group, have previously sold and reasonably expect to be able to sell within five business days after the expiration of the rights.

(8) Except as provided in subdivision (viii) of this subparagraph, the provisions of this paragraph shall not apply

to the purchase of rights.

(i) By or through the manager of the distributing group in a privately negotiated transaction effected neither on a securities exchange nor from or through a broker or dealer not participating in the distribution; or

(ii) By an underwriter or dealer directly from a retail customer in an unsolicited privately negotiated transaction not effected on a securities exchange; or

(iii) In stabilizing transactions in the rights effected in compliance with § 240.10b-7; or

(iv) In a privately negotiated transaction, otherwise than on a securities exchange, between persons participating in the distribution acting as principal; or

(v) By a person registered as an oddlot dealer in such rights on a national securities exchange who is acting in such capacity in effecting such transactions; or

(vi) To complete a sale of rights to a retail customer made under circumstances indicating the purchaser intends to exercise such rights; or

(vii) By the issuer of the rights from the security holder to whom they were originally issued if (a) such rights are not resold, (b) the securities which can be acquired with such rights are not sold by such issuer during the rights period, and (c) such issuer has no agreement to sell the unsubscribed shares or to compensate, directly or indirectly, any person for obtaining exercises of rights

except by a security holder to whom they were originally issued; or

(viii) By a dealer-manager, provided that (a) such dealer-manager has no arrangement with the issuer of the rights to purchase any part of the securities remaining unsubscribed after the rights expire, (b) such dealer-manager purchases such rights for the purpose of supplying the rights, or the security which can be acquired with such rights, to soliciting dealers: Provided, however That such dealer-manager shall not purchase more rights than are necessary to acquire the securities or rights which he reasonably expects to be able to sell to soliciting dealers within five business days after the expiration of the rights, and (c) such dealer-manager purchases such rights in accordance with the conditions set out in subparagraphs (2) (3) (4), (5) and (6) of this paragraph. As used in this section, the term "soliciting dealer" shall mean a person entitled to receive, directly or indirectly, from an issuer of rights, compensation for obtaining exercises of such rights; and the term "dealer-manager" shall mean a person who manages a distribution involving soliciting dealers except that the issuer of such rights shall not be deemed to be a dealer-manager.

(e) Whenever any act done or omitted by any person subject to this section would involve a violation of such section only if some other person had previously done or omitted to do some other act, the act or omission of such first-mentioned person shall not involve a violation unless such first-mentioned person knew or had reason to know that such other person had previously done or omitted

to do such other act.

(f) This section shall not prohibit any transaction or transactions if the Commission, upon written request or upon its own motion, exempts such transaction or transactions, either unconditionally or on specified terms and conditions, as not constituting a manipulative or deceptive device or contrivance comprehended within the purpose of this sec-

This action shall be effective August 15, 1955.

(Sec. 23, 48 Stat. 901 as amended; 15 U.S. C. 78w. Interpret or apply secs. 3, 9, 10, 48 Stat. 882, 889, 891, 15 U. S. C. 78c, 78i, 78j)

By the Commission.

TITLE 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

PART 67-INDUSTRIAL PERSONNEL SECU-RITY REVIEW REGULATION

OFFICE OF INDUSTRIAL PERSONNEL SECURITY REVIEW

The following changes have been made to § 67.2-1. § 67.2-1 (b) has been revoked in its entirety the paragraphs have been renumbered, and a new para-

graph (b) added. Section 67.2-1, as revised, reads as follows:

§ 67.2-1 Office of Industrial Personnel Security Review. (a) (1) The Office of Industrial Personnel Security Review will be headed by a civilian Director appointed by the Secretary of Defense after consultation with the Secretaries of the military departments. The Director shall be responsible to the Secretary of Defense and the Secretaries of the Army, Navy and Air Force for administering the Industrial Personnel Security Review Program, including its constituent boards. He will be responsible for ensuring that the Screening, Hearing, and Review Boards are provided with such advice, assistance and personnel, including legal and security advisors, as he considers necessary to enable the Boards properly to carry out their functions under this program. He will have such professional, technical and clerical staff as he may require to carry out his responsibilities as set out herein, and such other related responsibilities as may be prescribed. The Director is authorized to obtain information, assistance and advice directly from any activity of the Department of Defense and, in accordance with established policies, from other agencies of the Government. The Director will bring to the attention of the Secretary of Defense and the Secretaries of the military departments any case or significant development which in his judgment warrants their attention. He shall prepare monthly reports on the case loads of the boards and the status of cases pending before the boards. The Director may issue such supplemental instructions, not inconsistent with this part, as may be desirable for the administration and efficient operation of this program, including rules for the processing of cases, the conduct of screenings, hearings and reviews, and for guidance in the application of the standard and criteria set forth in § 67.3.

(2) The Director, in consultation with appropriate security offices, will develop such implementing procedures as are necessary to safeguard the security of classified information and investigative reports made available to any element

of the program.

(3) The Office of Industrial Personnel Security Review will be located in the Pentagon and will be supported administratively by the Office of the Secretary of Defense. The military departments will make appropriate allocations of funds, military and civilian personnel and personnel spaces.

(4) Communications will be addressed to the Director, Office of Industrial Personnel Security Review, The Pentagon,

Washington 25, D. C.

(b) The Department of the Army will have operational control and supervision over the Central Index Personnel and Facility Security Clearance File (heremafter called the Central Index File). The complete files of the records of cases processed by the Army-Navy-Air Force Personnel Security Board, the Industrial Employment Review Board, the Eastern, Central and Western Industrial Personnel Security Boards and the Boards

established by this part shall be maintained as a part of the Central Index File.

Chapter XVI—Selective Service System

[Amdt. 62]

PART 1670-RECORDS ADMINISTRATION IN FEDERAL RECORD DEPOTS

MISCELLANEOUS AMENDMENTS

The Selective Service Regulations are hereby amended as follows:

1. Sections 1670.1, 1670.2, and 1670.3 are amended to read as follows:

§ 1670.1 Applicability of regulations in this part. The provisions of the regulations in this part shall govern the administration, preservation, custody, use, and availability of all records which are now in or may hereafter be placed in Federal record depots which shall include (a) all extant records obtained under the Selective Training and Service Act of 1940, as amended, which are in the possession of the Selective Service System. (b) all extant records obtained under Public Law 26, 80th Congress, which are in the possession of the Selective Service System, and (c) all records obtained under title I of the Universal Military Training and Service Act, as amended, which have been or may be designated for placement in such depots by the Director of Selective Service.

§ 1670.2 Federal record depots. Within each State Headquarters for Selective Service, as a division thereof, the Federal record depot established under the Office of Selective Service Records shall be continued and operated with the functions of maintaining custody of and preserving and servicing all records which are now in or may hereafter be placed in such depot, which records shall remain intact therein, subject to the provisions of such directives as may hereafter be promulgated by the Director of Selective Service.

§ 1670.3 Federal record depot for National Headquarters. A Federal record depot shall be established at National Headquarters for Selective Service for the custody, preservation, servicing, and disposal of such records as may be designated by the Director of Selective Service.

2. Section 1670.5 is amended to read as follows:

§ 1670.5 Confidential records. records obtained under the Selective Training and Service Act of 1940, as amended, except Registration Cards (DSS Form 1) and Classification Records (DSS Form 100), and all records obtained under Public Law 26, 80th Congress, and title I of the Universal Military Training and Service Act, as amended, which are in Federal record depots of the several State Headquarters for Selective Service and the information contained in such records shall be confidential, and shall not be available in any manner or used for any purpose except as provided bythe regulations in this part. Information on Registration Cards (DSS Form 1) and information contained in Classification Records (DSS Form 100) shall be available to the public.

- of § 1670.6 is 3. Paragraph (b) amended to read as follows:
- § 1670.6 "Registrant" and "registrant's file" defined. * * *
- (b) When used in the regulations in this part, the term "registrant's file" shall include his cover sheet, if any, and contents.
- 4. Paragraph (a) of § 1670.8 is amended to read as follows:
- § 1670.8 Availability and use of confidential records and information. (a) Information contained in records in a registrant's file may be disclosed or furnished to, or examined by, the following persons, namely.
- (1) The registrant, or any person having written authority signed by the registrant.
- (2) The legal representative of a deceased registrant upon presentation of letters testamentary or letters of administration, or where there is no legal representative appointed for the estate of a deceased registrant, his next of kin; provided, that proof of the registrant's death and proof of the relationship of the next of kin to the registrant have been submitted and are in his file. For the purpose of this subparagraph, the next of kin of a registrant shall be limited to his widow, child, mother, father, brother, or sister.
- (3) All personnel of the Selective Service System while engaged in carrying out the functions of the Selective Service System.
- (4) United States Attorneys and their duly authorized representatives, including agents of the Federal Bureau of Investigation.
- (5) Any agency, official, or employee, or class or group of officials or employees, of the United States or any State or subdivision thereof, but only when and to the extent specifically authorized in writing by the State Director of Selective Service or the Director of Selective
- 5. Section 1670.11 is amended to read as follows:
- § 1670.11 Supplying information: in general. Requests for information contained in the records in a Federal record depot shall be made either in writing or in person. No such information shall be supplied until the person making the request has been identified as a person, or as an authorized representative of an agency, entitled to obtain such information pursuant to the regulations in this part.

6. Sections 1670.14 and 1670.15 are revoked...

(Secs. 6, 7, 61 Stat. 32, sec. 10, 62 Stat. 618, as amended; 50 U. S. C. App. 326, 327, 460)

The foregoing amendments to the Selective Service Regulations shall be effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY, [SEAL] Director of Selective Service.

TITLE 21—FOOD AND DRUGS

Chapter I-Food and Drug Administration, Department of Health, Education, and Welfare

PART 146a-CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PART 146c—CERTIFICATION OF CHLORTET-RACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACY-CLINE-) CONTAINING DRUGS

PART 146e—CERTIFICATION OF BACITRACIN AND BACITRACIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U.S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F R. 1996) the regulations for certification of antibiotic and antibiotic-containing drugs (21 CFR, 1953 Supp., Parts 146a, 146c, 146e; 19 F. R. 1141, 4001, 5986, 6080; 20 F R. 1643) are amended as indicated below.

- 1. In § 146a.86 Benzathine penicillin G and procaine penicillin for aqueous ingection, paragraph (c) is amended by changing the words "12 months" to read "18 months"
- 2. In § 146c.221 Tetracycline hydrochloride for intramuscular use, paragraph (c) (1) (iv) is amended by changing the words "12 months" to read "24 months"
- 3. In § 146c.223 Chlortetracycline-neomycin-streptomycin-penicillin ointment * * * paragraph (b) is amended by changing the words "12 months" to read
- "18 months" 4. Section 146e.420 Bacitracin-tyrothricin-neomycin troches * * * amended in the following respects:
- a. Paragraph (c) is renumbered as paragraph (d) and a new paragraph (c), reading as follows, is inserted between paragraph (b) and renumbered paragraph (d)
- (c) They may contain cortisone or a [F. R. Doc. 55-5751; Filed, July 14, 1955; suitable derivative of cortisone.

b. Renumbered paragraph (d) is amended by changing the period at the end thereof to a comma and adding the following new clause: "and if it contains cortisone or a derivative of cortisone, the name and quantity of each such substance."

(Sec. 701, 52 Stat. 1055; 21 U.S. C. 371)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

This order shall become effective upon publication in the Federal Register, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: July 11, 1955.

[SEAL] GEO. P LARRICK, Commissioner of Food and Drugs.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

I 7 CFR Part 927]

[Docket No. AO 71-A29]

HANDLING OF MILK IN NEW YORK METRO-POLITAN MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MAR-KETING AGREEMENT, AND TO PROPOSED ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S. C. 601 et seq.) and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900) a public hearing was conducted at Syracuse, New York, and at New York, New York, during the period February 21 through March 17, 1955, pursuant to notice thereof issued on February 14, 1955, and published in the Federal Register on February 17, 1955 (20 F. R. 1016)

Upon the basis of the evidence introduced at such hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on June 6, 1955, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision with respect to the following listed issue No. 4 and opportunity to file written exceptions thereto which was published in the Federal Register on June 9, 1955 (20 F. R. 4025)

The material issues of record are concerned with:

- 1. The pricing of Class I-A milk;
- 2. The pricing of Class III milk;
- 3. The need for prompt action necessitating omission of a recommended decision and opportunity for exceptions with respect to issues 1 and 2; and

4. The classification of milk used in the manufacture of Italian soft cheeses at plants in the marketing area.

Rulings. Within the period reserved therefor, interested parties filed exceptions to certain of the findings and conclusions recommended by the Deputy Administrator. In arriving at the findings and conclusions of this decision, each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that findings and conclusions decided upon herein are at variance with any of the exceptions filed to the recommended decision, such exceptions are overruled. Rulings contained in the recommended decision upon proposed findings and conclusions submitted by interested persons are affirmed except as modified by the findings and conclusions set forth herein. To the extent that findings and conclusions proposed by interested persons and not ruled upon in the recommended decision are inconsistent with the findings and conclusions contained herein, the specific or implied requests to make such findings and reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions herein set forth.

Findings and conclusions. The findings and conclusions hereinafter set forth are based upon the evidence in the record of the hearing and relate only to the above listed issue No. 4. Findings and conclusions on issues 1, 2, and 3 are contained in a separate decision issued on April 19, 1955, and published in the FEDERAL REGISTER on April 22, 1955 (20 F. R. 2688).

Issue No. 4. The issue to be decided is whether or not the order should be amended to provide for classification in Class III of milk which is shipped to a plant in the marketing area from another plant and is manufactured at the plant where first received in the marketing area into Italian soft cheeses known as ricotta and mozzarella.

Under existing provisions of the order the classification of milk shipped in the form of milk to a plant in the marketing area is determined at the plant from which the milk is shipped to the plant in the marketing area and is classified in Class I-A. At no time since the order has been in effect has there been provision for classifying such milk in other than Class I-A (or an otherwise designated highest priced class) Under the proposal presented at this hearing, the classification in Class III of milk shipped as fluid milk from another plant to a plant in the marketing area would be permitted for the first time under the order, and would be accomplished by providing that classification would be determined at the plant in the marketing area if the milk is used at the plant where first received in the marketing area in the manufacture of ricotta and mozzarella cheeses.

The specific proposal on which the hearing was called was to amend § 927.33 of the order by adding a new paragraph "(f)" providing that "the classification of milk shipped in the form of milk to a plant in the marketing area shall be determined at the first plant in the marketing area at which such milk is received, if moved from such plant in the form of cheeses other than those cheeses mentioned in § 927.43." At the hearing, however, the proponent, a manufacturer of ricotta and mozzarella cheeses, proposed that the amendment be limited to milk utilized in making these two varleties of cheese and to plants in the marketing area from which no milk is disposed of in fluid form.

Proponent contends that the proposed amendment is needed to enable him to utilize Class III milk in the manufacture of ricotta and mozzarella cheeses at a plant in the marketing area. Proponent now operates, and for several years has operated, a plant located at Heuvelton in St. Lawrence County, New York, at which fluid milk received from pool plants operated by other handlers is manufactured into ricotta cheese and

mozzarella curd. These products are then shipped by truck to his plant in the marketing area at which the manufacture of mozzarella cheese is completed and from which both products are distributed to various consumer outlets both within and outside the marketing area. Such cheeses are also distributed in the marketing area from plants operated by other concerns. Some such plants are located a considerable distance from the marketing area and others just outside the marketing area. Some of such cheese is manufactured from pool milk and some from nonpool milk, and both from milk which is approved by marketing area health authorities for sale as fluid milk in the marketing area and from milk which is not so approved.

The primary reasons advanced by proponent in support of the proposed amendment are that it would enable him to (1) supply consumers with a higher quality product, and (2) effect economies in his operation. The products which he manufactures, particularly ricotta, were represented as being highly perishable and for which the demand is fluctuating and unpredictable. These characteristics, it was claimed, make it desirable for the product to be manufactured near the point of consumption. thus permitting delivery to consumers more promptly after manufacture and the more effective servicing of customers.

Proponent contends that a consolidated manufacturing and distribution operation at the same point in the city would be more economical, and that this factor coupled with improved quality of product would enable him to expand his sales of the product and to compete more effectively with other concerns engaged in the same business including those with distribution directly from manufacturing plants located just outside the marketing area. It was predicted by proponent that the proposed amendment, if adopted, would improve returns to producers because he would use more pool milk at the full Class III price which otherwise would be used for butter and cheese, and because no substantial volume of Class I-A milk is now used to make ricotta and mozzarella for which Class III milk could be substituted if the amendment were adopted. Proponent also asserted that the proposed amendment would create no new administrative problems associated with verifi-cation of utilization, and no new opportunity for evasion through the substitution of Class III milk in higher priced uses.

A number of proponent's contentions and assertions were disputed by opposition witnesses. It was pointed out that transportation costs on fluid milk moved to the marketing area for manufacturing would be higher than for transporting the products and that for this and other reasons the claimed economies are not realistic. The importance of manufacture near the point of consumption

from the standpoint of quality was discounted by evidence that ricotta must in any event be held for a period of time after manufacture before delivery to consumer outlets and by evidence that proponent himself now distributes his product in areas as far distant as Florida. Another manufacturer testified that manufacturing at plants considerable distance from the marketing area had not prevented him from adequately supplying his customers. Conflicting testimony also was presented relative to the number of establishments in the marketing area which would take advantage of the opportunity to obtain Class III milk for the manufacture of ricotta and mozzarella including numerous establishments now using Class I-A milk. The prospect that the proposed amend-ment inevitably would lead to equally valid claims for the same treatment for other manufactured products was presented. Contrary to the assertions of proponent others expressed considerable apprehension over the extent to which the proposed amendment would create opportunities for evasion and the substitution of Class III milk in higher priced uses. It appears by no means certain that the proposed amendment would not adversely affect returns to producers. The evidence presented provides no basis for concluding that the proposed amendment is needed from the standpoint of orderly marketing of milk in the market.

Departure from the long established principle relating to the classification of milk shipped in the form of milk from other plants to plants in the marketing area is not justified without a better basis for distinguishing between the products manufactured by the proponent at this hearing and other products manufactured from fluid milk, or without a more comprehensive analysis and consideration of the problems associated with the departure from such a long established principle.

Accordingly, it is concluded that the proposed amendment should not be adopted.

Rulings. Briefs were filed on behalf of interested persons. The briefs contained suggested findings of facts, conclusions, and arguments with respect to the proposals considered at the hearing. Every point covered in the briefs was carefully examined along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied.

This decision filed at Washington, D. C., this 12th day of July 1955.

[SEAL]

EARL L. BUTZ, Assistant Secretary.

[7 CFR Part 990]

HANDLING OF MILK IN NEW YORK-NEW JERSEY METROPOLITAN MARKETING AREA

NOTICE OF DETERMINATION CONCERNING STATUS OF HEARING RECORD AND TERM-INATION OF PROCEEDING

A public hearing (hereinafter referred to as "the Newark hearing") was held beginning on June 2, 1952 at Newark, New Jersey, pursuant to notice thereof issued on May 6, 1952, and published in the Federal Register on May 9, 1952 (17 F R. 4257) relative to proposed regulation of the handling of milk in a proposed New York-New Jersey marketing area. Sessions of such public hearing subsequently were held at various other

locations in the States of New Jersey and New York with adjournment at Newark, New Jersey, on July 30, 1952.

Since the adjournment of the Newark hearing, various new proposals have been received for new or revised Federal or joint Federal-State regulation of the handling of milk in the New York-New Jersey area, and on June 15, 1955, notice was issued, and published in the FEDERAL REGISTER on June 18, 1955 (20 F. R. 4307), of intention to conduct appropriate proceedings for the consideration of such new proposals starting with a public meeting to be held at Trenton, New Jersey, beginning on July 18, 1955. Some of such new proposals involve issues similar to those presented at the Newark hearing. Thus, it is of importance to interested parties that a determination be made at this time concerning the status of the record of the Newark hearing in order that they may properly prepare for effective participation in these recently announced new proceedings.

Accordingly, in view of the fact that

much of the evidence in the record of the Newark hearing has been rendered obsolete by the lapse of nearly three years of time, notice is hereby given that no findings of fact, conclusions, or proposed marketing agreement or marketing order will be issued on the basis of evidence in the record of such hearing, that such hearing will not be reopened, and that such proceeding is hereby terminated.

It is hereby ordered. That this notice be filed with the Hearing Clerk, United States Department of Agriculture, and published in the FEDERAL REGISTER.

Done at Washington, D. C., this 12th day of July 1955.

[SEAL]

EARL L. BUTZ. Assistant Secretary.

JULY 11, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

W. G. GUERNSEY, Acting Director Bureau of Land Management.

Notice for Filing Objections to Order Withdrawing Public Lands for the Missouri River Basın Project, Nebraska

JULY 11, 1955.

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the term of the above order withdrawing certain public land in the State of Nebraska, for use in connection with the Missouri River Basin Project, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents to the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded. modified or let stand will be given to all eral public.

W. G. Guernsey Acting Director, Bureau of Land Management.

COLORADO RIVER STORAGE PROJECT, ARIZONA

ORDER OF REVOCATION

MAY 19, 1955.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby revoke Departmental Order of January 15, 1942, insofar as said order affects the following described land; provided, however, that such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the lands hereinafter described.

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 21 N., R. 20 W., Secs. 15, 16, 21 and 22, all.

The above area aggregates 2,560 acres.

E. G. NIELSEN, Acting Commissioner. [Misc. 1895737]

JULY 11, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

Portions of the lands in Sections 15 and 16, aggregating approximately 55 acres, are patented lands embraced in mining claims and 602.81 acres of Section 16 are State school lands.

The remaining lands are grazing lands located across the summit of the Black Mountains approximately 21 miles west of Kingman, County Seat of Mohave County, Arizona. The general elevation is approximately 3,280 feet above sea level and the topography is rough and rugged.

No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the restored lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition and se-lection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U.S. C. 279-284). as amended.

Veterans' preference-right applications under the said act of September 27, 1944, may be received on or before 10:00

interested parties of record and the gen- a. m. on the 35th day after the date of this order, and those covering the same lands shall be treated as though simultaneously filed at that time. Applications filed under the act after that time and during the succeeding 91 days shall be considered in the order of filing. Applications by the general public under the public-land laws, including the mineral-leasing laws, received on or before 10:00 a.m. on the 126th day after the date of this order shall be treated as though simultaneously filed at that time, where the applications are for the same lands; otherwise, priority of filing shall govern.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Phoenix, Arizona.

W. G. GUERNSEY, Acting Director Bureau of Land Management.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup.

214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. Tho effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24, as amended April 19, 1955, 20 F R. 2304)

Blakely Manufacturing Corp., Blakely, Ga., effective 7-4-55 to 1-3-56; 10 learners for plant expansion purposes (washable service garments).

Blakely Manufacturing Corp., Blakely, Ga., effective 7-4-55 to 7-3-56; 10 learners for normal labor turnover purposes (washable service garments).

service garments).

Burlington Manufacturing Co., Miami, Okla., effective 6-30-55 to 6-20-55; 10 porcent of the total number of factory production workers for normal labor turnover purposes (overalls, dungarces, and western dungarces).

Carwood Manufacturing Co., Winder, Ga., effective 6-28-55 to 6-27-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (cotton work pants and shirts).

Cherryvale Manufacturing Co., Cherryvale, Kans., effective 7-4-55 to 1-3-56; 20 learners for plant expansion purposes (mon's work pants)

pants).
Donlin Sportswear, Inc., New Tazewell,
Tenn., effective 7-4-55 to 1-3-56; 25 learners
for plant expansion purposes (sport shirts).

Morris Freezer and Co., Inc., Wythoville, Va., effective 6-29-55 to 6-28-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (boys' woven shirts).

Hestaco Manufacturing Co., Inc., 443 West High Street, Elizabethtown, Pa., effective 7-4-55 to 7-3-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (children's dresses).

Hollywood Corset Co., North Faulk Street, Athens, Tex., effective 7-16-55 to 7-15-56; 10 percent of the total number of factory production workers for normal labor turnover numbers (brassleres).

purposes (brassleres).

Hunter-Sadler Co., Strauss Street, Tupelo, Miss., effective 7–16–55 to 7–15–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

Lafayette Pants Co., 401 Lafayette Boulevard, Fredericksburg, Va., effective 6-30-55 to 6-29-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's dress trousers).

Lanier Manufacturing Co., Easley, S. C., effective 6-28-55 to 6-27-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

Linwood Mills, LaFayette, Ga., effective 7-1-55 to 6-30-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts)

Pool Manufacturing Co., 1601 South Montgomery Street, Sherman, Tex., effective 6-30-

55 to 6-29-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (work, uniform and dress shirts; work pants, etc.).

Roberta Manufacturing Co., Inc., Roberta, Ga., effective 7–1–55 to 12–31–55; 25 learners for plant expansion purposes (children's and gırls' poplin dungarees, shorts, pedal pushers,

Style-Rite Manufacturing Co., Inc., South Broadway, Shelbyville, Ill., effective 7-5-55 to 7-4-56; 10 learners for normal labor turn-

over purposes (dresses).
Troutman Shirt Co., Inc., Pants Division,
Mooresville, N. C., effective 6-30-55 to 1229-55; 15 learners for plant expansion purposes (work pants and shirts)

Wythe Shirt Corp., Wytheville, Va., effective 6-29-55 to 6-28-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (boys' woven shirts).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.43, as amended April 19, 1955, 20 F. R. 2304)

Drexel Knitting Mills Co., Drexel, N. C., effective 7-9-55 to 7-8-56; 5 percent of the total number of factory production workers for normal labor turnover purposes (seamless hosierv).

Unique Knitting Co., Acworth, Ga., effective 6-29-55 to 6-28-56; 5 percent of the total number of factory production workers for normal labor turnover purposes (seamless hosierv).

Knitted Wear Industry Learner Regulations (29 CFR 522.30 to 522.35, as amended April 19, 1955, 20 F. R. 2304).

Midland Mills of North Carolina, Inc., Midland, N. C., effective 7-4-55 to 1-3-56; 25 learners for plant expansion purposes (men's and boys' T-shirts).

Midland Mills of North Carolina, Inc., Midland, N. C., effective 7-4-55 to 7-3-56; 5 learners for normal labor turnover purposes (men's and boys' T-shirts).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12. as amended February 28, 1955, 20 F R. 645)

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning periods and the learner wage rates are indicated, respectively.

Corozal Knitting Mills, Inc., Corozal, P. R., effective 6-27-55 to 6-26-56; 20 learners in any one work day in the occupations of finger knitting, finger closing, and mending; each 480 hours at 30 cents an hour (knitted gloves and mittens).

Kirk-Wing Co., Bo. Cabo Caribe, Vega Baja, P. R., effective 6-27-55 to 12-26-55; 10 learners in any one work day in the occupations listed below, for the learning periods at the subminimum wage rates indicated: Screw machine operator, and milling machine operator, each 320 hours at 58 cents an hour; 320 hours at 64 cents an hour; and 320 hours at 70 cents an hour; plating shop operator, 160 hours at 58 cents an hour; 160 hours at 64 cents an hour; and 160 hours at 70 cents an hour; punch press operator, 160 hours at 58 cents an hour, and 80 hours at 64 cents an hour; furnace operator, 160 hours at 58 cents an hour (bushings and other screw machine products).

Puerto Rico Ball and Bearing Co., Inc., Comercio and Iglesias Streets, Ponce, P. R., effective 6–27–55 to 12–26–55; 9 learners in any one work day in the occupations of gaugers and inspectors, for 160 hours at 58 cents an hour; grinders, lappers, and polishers each 160 hours at 58 cents an hour, and 160 hours at 64 cents an hour (one millimeter balls).

Reina Manufacturing Co., Long Building, Puerto Nuevo, P. R., effective 6-16-55 to 12 15-55; 8 learners in any one work day in the occupation of sewing machine operating on women's shorts and pedal pushers, for 160 hours at 30 cents an hour; 160 hours at 36 cents an hour; and 160 hours at 42 cents an hour (women's shorts and pedal pushers).

Somtex Knitting Mills., Inc., Yauco, P. R., effective 6-23-55 to 12-22-55; 15 learners in any one work day in the occupations of ceaming, looping, topping, knitting, machine sewing, machine pressing, and hand cewing; each 160 hours at 30 cents an hour, 160 hours at 371/2 cents an hour, and 100 hours at 45 cents an hour (sweaters).

Swivels, Inc., Commercio and Iglesias Street., Ponce, P. R., effective 6-27-55 to 12-26-55; 8 learners in any one work day in the occupations of swedgers and drillers, and assemblers; each 160 hours at 58 cents an hour (swivels).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 6th day of July 1955.

> MILTON BROOKE, Authorized Representative of the Administrator
